MOTIONS AND RESOLUTIONS

Mr. Flaherty presented

Bill No. 1929. Whereas, the Council of the City of Pittsburgh has heretofore passed an Ordinance under the provisions of Section 2801-1-A-(10) and 2801-1-A-(26) of the Zoning Ordinance, No. 192, approved May 10, 1958, as amended, approving as a Conditional Use for extensions and additions to an existing home for crippled children with 62 off-street parking stalls in an "R2" Two-Family Residence District on property bounded by Northumberland Street, Shady Avenue, Block 85-S, Lots Numbered 313 and 219 in the Allegheny County Block and Lot System, and Dennistown Street, 14th Ward, City of Pittsburgh, in accordance with Conditional Use Application No. 234, Application for Occupancy Permit No. 17087 dated December 13, 1967 and accompanying Plot Plan and Site Plan dated June 13, 1967 prepared by Johnstone, McMillin and Associates, R.A., said ordinance having been approved by the Council on February 13, 1968 and by the Mayor of the City of Pittsburgh on February 15, 1968; and

Whereas, the aforesaid Zoning Ordinance provides in Section 3003 that if a Conditional Use involves physical improvement and such physical improvement has not been substantially started within six months after the date of approval, the approval shall be void unless the Council renews its approval; and

Whereas, physical improvement pursuant to the approval of Conditional Use Application No. 199 of 1968 was not substantially started within six months of said approval and applicant has requested that approval of Conditional Use Application No. 199 of 1968 be renewed; and

Whereas, the Planning Commission of the City of Pittsburgh, has recommended renewal of approval of Conditional Use Application No. 199 of 1968 by the Council,

Now Therefore Be It

Resolved, That, pursuant to Section 3003 of the Zoning Ordinance, No. 192, approved May 10, 1958, as amended, the approval of Conditional Use Application No. 199 of 1968, approved by the Council of the City of Pittsburgh on February 13, 1968 and by the Mayor of the City of Pittsburgh on February 15, 1968 be and is hereby renewed.

Which was read.

Mr. Flaherty moved

The adoption of the resolution.

Which motion prevailed.

Mr. Mason presented

Bill No. 1930.

Whereas on January 6, 1969, Reverend Charles P. Robshaw resigned as a member of the Mayor's Commission on Human Relations; and

Whereas, Reverend Robshaw served as a member of that body for over ten years; and

Whereas, Dr. Robshaw was born in Dublin, Ireland, and is married to Vadis Elizabeth Woolsey and has four children; and

Whereas, Dr. Robshaw attended the University of Dublin, University of Edinburgh, Scotland, Princeton Theological Seminary, Union Theological Seminary and Temple University and

Whereas, Dr. Robshaw pastored at Glading Presbyterian Church before coming to Pittsburgh's East Liberty Church in 1957; and

Whereas, Dr. Robshaw serves on several boards including Pittsburgh Theological Seminary, Commission on Ecumenical Mission and Relations, Pittsburgh Council on Public Education, East Liberty Housing, Inc., Gaelic Arts Society of Pittsburgh; and

Whereas, Dr. Robshaw gave guidance to ninth and tenth grade students who needed help with needed subjects Saturday Housing Project (a painting task for housing in need); East Liberty Church was one of three churches and

a Neighborhood House which founded East Liberty Housing, a non-profit corporation erecting a \$2 million low-moderate income housing; organized sewing classes for girls from OEO Programs, as well as opening the church facilities to a host of other community projects; and

Whereas, Dr. Robshaw gave support to NEED, United College Fund, Urban League, NAACP, Red Cross, and other worthwhile community groups; and

Whereas, Dr. Robshaw, during his years of service with the Commission on Human Relations and the City, distinguished himself as a leader in the cause of civil rights; and

Whereas, Dr. Robshaw sat in many private conferences where his mediation and conciliation efforts kept many conflict situations from coming to public attention; and

Whereas, Dr. Robshaw never shrunk from any duty which became a matter of public hearing, such as in the Zoltan Kane, Nickens vs. Totten, Anderson Brunfield vs. the Plumbers, where he sat as a hearing commissioner; and

Whereas, Dr. Robshaw brought fortitude, integrity and a sense of humor to discussions, all of which helped solve many problems through these tension situations, Now Therefore

Be It Resolved, That the Council of the City of Pittsburgh commends and expresses the very deep gratitude of the City of Pittsburgh to Dr. Charles P. Robshaw for his illustrious and diligent service and for his many years of distinguished service towards the achievement of peace and tranquility in the institutional life of the City of Pittsburgh.

Which was read.

Mr. Mason:

I think a little bit of background on Dr. Robshaw needs to be added. Dr. Robshaw was born in Dublin, Ireland, where he attended school and he married a former Minnesotan from a small town outside of St. Paul. He has four children. He attended the University of Edinburgh, the school of language, Princeton Theological Seminary,

Union Theological Seminary, Temple University. He pastored at Glading Presbyterian Church in Philadelphia before coming to Pittsburgh. Shortly after coming here Dr. Robshaw made East Liberty Church facilities available in many many instances in teachings of giving guidance to youths of ninth and tenth grade education on subjects in which they needed tutoring. He also started Saturday Housing Project which is a project where they go out and paint houses which are in bad need of paint, free of charge. He also, together with the neighborhood houses and three other churches, started the East Liberty Housing project, amounting to two million dollars for moderately and low income houses. He organized a sewing class for girls in the OEO program as well as opening the church facilities to a host of other community projects. Dr. Robshaw, during his years of service with the Commission on Human Relations and the City, distinguished himself as a leader in the cause of civil rights; and sat in many private conferences where his mediation and conciliation efforts kept many conflicting situations from coming to the attention of the public. His leadership will be greatly missed though he is not leaving Pittsburgh. The great number of activities he has given to the East Liberty area are greatly appreciated. Therefore, I move adoption to this resolution.

Mr. Kuhn:

As a member of the congregation of the East Liberty Presbyterian Church I am proud to second Mr. Mason's motion. I know the great leadership that Dr. Robshaw has given the congregation. Also, he has aided projects that are valuable to the entire City, particularly to the black community in East Liberty. I think he has done a great deal; his efforts in human relations without a doubt have been very, very valuable to the City.

Which motion prevailed.

Mr. Flaherty moved

That Mr. Fagan be excused for absence from this meeting.

Which motion prevailed.

Mr. Leslie moved

That the Minutes of Council of Monday, January 20, 1969, be approved.

Which motion prevailed.

And, on motion of Mr. Mason,

Whereas, Title VI of the Civil Rights Act of 1964, and the regulations of the Secretary of the Department of Housing and Urban Development effectuating that Title, provide that no person shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to, discrimination in the undertaking and carrying out of any program or activity receiving Federal financial assistance under Title I of the Housing Act of 1949, as amended; and

Mr. Flaherty:

On Bill No. 2214, for reasons previously stated which I want to emphasize again on the helicopter bill. I'm going to vote no in accordance with the views I expressed last Wednesday. The bill does not reflect all of the costs that will be involved in the helicopter program. It only reflects the initial cost of the helicopter program.

The second reason I already mentioned I believe, is that the County should share in all or part of the cost. This is a County function more than a City function. I believe in sharing the cost it will save more for the police budget and it will be put to better use. I think I should re-emphasize my position on this point. I vote no on Bill No. 2214 and yes on the other bills.

MOTIONS AND RESOLUTIONS

Mr. Flaherty presented

Bill No. 2296. Authorizing the Urban Redevelopment Authority of Pittsburgh to purchase, in accordance with the terms and conditions of the proposal for the Hill District Recovery Program, as amended, three additional parcels in the "Bryn Mawr Mall Site" in the 5th Ward of the City of Pittsburgh, County of Allegheny, Commonwealth of Pennsylvania.

WHEREAS, by Resolution No. 147 of 1968, the Council of the City of Pittsburgh approved the Proposal, dated June 19, 1968, for the Hill District Recovery Program in the 3rd and 5th Wards of the City of Pittsburgh; and

WHEREAS, by Resolution No. 242 of 1968, the Council of the City of Pittsburgh, approved an Amendment, dated November 1 1968, to the said Proposal for the Hill District Recovery Program; and

WHEREAS, in accordance with the purposes of the Proposal for the Hill District Recovery Program, as amended, the Urban Redevelopment Authority of Pittsburgh is to acquire sites and demolish vacant and vandalized structures for the construction of new shopping facilities and other community services; and

WHEREAS, by Resolution No. 272 of 1968, the Council of the City of Pittsburgh approved the acquisition of four contiguous parcels in the Bryn Mawr Site in the Hill District Recovery Program area; and

WHEREAS, by Resolution No. 49 of 1969, the Council of the City of Pittsburgh approved a budget dated March 7, 1969 setting forth Net Project Costs in the amount of \$59,600 for said Bryn Mawr Mall Site; and

WHEREAS, the Urban Redevelopment Authority of Pittsburgh desires to acquire three adjacent parcels in said Bryn Mawr Mall Site, by the assignment from Business and Job Development Corporation of options therefor and/or otherwise, at a cost not to exceed \$25,000 as provided in said Budget heretofore approved; and

WHEREAS, the Urban Redevelopment Authority of Pittsburgh believes the acquisition of said three parcels will be consonant with the declared purposes of the Proposal for the Hill District Recovery Program, as amended, and in the public interest; and

WHEREAS, the Council of the City of Pittsburgh believes that the aforesaid acquisition of the three adjacent parcels in said Bryn Mawr Mall Site by the Urban Redevelopment Authority of Pittsburgh will effectuate the purposes and provisions of the said Hill District Recovery Program and desires to give approval to said acquisition.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Pittsburgh as follows:

That the Urban Redevelopment Authority of Pittsburgh be and is hereby authorized to purchase Parcels designated Lot and Block Nos. 26N-0, 26N-10 and 26N-11 in the Deed Registry Office, of Allegheny County and situate in the Bryn Mawr Mall Site in the Hill District Recovery Program area at a cost not to exceed \$25,000.

Which was read.

Mr. Mason:

Under remarks I am a little concerned about semantics in the resolution relative to the three properties. If I understood our people from the URA this morning, they would purchase the first two pieces of property directly. There is no opposition on the part of the owners, but there is reluctance on

the part of the third owner and that the URA wanted to have the right to continue to dicker with the present owner, who is not at this point, willing to sell and I just wanted to make sure this is a distinction. They have a right to purchase, but the third party would have the right to continue to dicker if so desired.

Mr. Kuhn:

It's my understanding that the Authority has to have the authority to negotiate, but it doesn't oblige them to conclude any negotiations. This will simply give them the power and they will exercise discretion in recommending any construction and acquisition.

Mr. Flaherty moved

The adoption of the resolution.

Which motion prevailed.

Mr. Kamyk:

Mr. President and members of Council, on Friday, March 28, the City of Pittsburgh and the Catholic Diocese of Pittsburgh, which includes six western counties, was electrified with the news that His Holiness Pope Paul VI, named the Bishop of the Pittsburgh Diocese to the College of Cardinals, and who is the first to receive such an honor in the Pittsburgh Diocese.

Many people, Catholics and non-Catholics, joined in the happiness and appreciation with his Eminence, John Cardinal Wright. Cardinal Wright is a great man. In his many duties he has most achieved his spirited efforts in bringing about understanding, better feeling, justice, and unity among various races, ethnic and religious groups. He best exemplifies his feelings by his statement when he said, "There is only one race, the Human Race."

I believe that we all should take this feeling, this expression to our hearts, and we should do our best in the spirit of love thy neighbor, to aid and assist in such a goal as to achieve a better feeling among peoples, and this means happiness to all.

So, to commemorate this great occasion I offer this Resolution, and I ask for its reading and adoption.

Mr. Kamyk presented

Bill No. 2297.

WHEREAS, Bishop John J. Wright, of the Pittsburgh Catholic Diocese, served this diocese for ten years as a civic and religious leader; devoutly recognized "One Human Race" in his embrace of every culture, nationality and ethnic group; and whose outstanding leadership in the field of civil rights has been an inspiring example to our community; and

WHEREAS, His elevation to the College of Cardinals of the Roman Catholic Church by Pope Paul VI has made him the first Bishop of this diocese to be so honored and the first Bishop in America to make this elevation.

NOW, THEREFORE, BE IT RESOLVED, That the Mayor and the Members of City Council, on behalf of the citizens of the City of Pittsburgh, are proud and honored and offer a special kind of congratulations and prayer for "His Eminence," John Cardinal Wright.

Which was read.

Mr. Kamyk:

Mr. President, I now move for the adoption of the Resolution and I also ask that a copy of this Resolution be forwarded to his Eminence, John Cardinal Wright.

Mr. Kuhn:

Mr. President, as a non-Catholic it gives me particular pleasure to second Mr. Kamyk's motion and ask for the adoption of the Resolution.

Bishop Wright, now Cardinal designate, has certainly done a great deal in the Diocese and community too, for the goals of Pope John and the Ecumenical Conference, Vatican second, and the principles of the very fine encyclical of Pope John that have guided those of us who have hoped for the unification of all Christians; and it gives me particular pleasure to join in this Resolution.

Which motion prevailed.

Mr. Mason moved

That Mrs. D'Ascenzo and Mr. Leslie be excused for absence from this meeting.

Which motion prevailed.

Mr. Mason moved

That the Minutes of Council of Monday, March 24, 1969, be approved.

Which motion carried.

Mr. Mason moved

That this meeting of Council adjourn in memory to the late General of the army and thirty-fourth President of the United States, Dwight David Eisenhower. I recommend adjournment with a moment of silent prayer.

Whereupon Council adjourned.

Mr. Flaherty

Mr. President, before we go into final action, I have a question on two bills which I raised at the Committee meeting last week—Bills No. 2273 and 2274, dealing with various capital improvements. I have requested a public hearing and on the same day, April 2, Mr. Skillin presented a letter asking to be heard on these two bills. These requests were presented in writing since last Wednesday. Of course, it would be of no consequence to have a public hearing after the bills are passed and since we are about to take final action, for this reason, I would ask that the Chair consider deferring these bills and have the public hearing set for this Wednesday.

Bill No. 2273, which everyone can refer to in today's bills, Bill 2273 says that \$1.3 million will be spent for rehabilitation of various City streets and roads and certain water lines are also included. I really think the ordinance is vague in its terminology in not setting forth the actual streets so that the public can know them. I know that we, here, in City Council, had discussed these various street improvements but I think every ordinance should be informative to the public. This ordinance says \$1.3 million is to be spent on various City streets, and that is my first objection—not sufficiently informative to the public.

Number two, I know, traditionally, Council has said it presents public hearings to all those who wish to be heard. I think this is an important matter. I know the Mayor's office has said "30 miles of City streets" but some would question what streets are included in this bill. I know, myself, less than 19, or portions of 19 streets, are covered. I think these streets should be specifically set out in the ordinance. After all, when we put a "no parking" sign or a "one-way" sign, that ordinance spells out what streets shall be so posted. I think resurfacing and rehabilitation for the amount of money being spent, we ought to know what streets they are.

I thereby move we have a public hearing on this matter and on Wednesday, have the director come up and include, specifically, the portions of what streets

are included in this ordinance and I so move. I made the request on Wednesday, and I renew my request.

The Chair:

This is a Legislative meeting of City Council and the rules here are made for Mr. Flaherty, the same as for Mr. Counahan. You know how to handle a situation like this and the length of time in which this could have been brought before Council. We have nothing before this Legislative meeting that has to do with a public hearing. Until such time as it goes through Committee and we, as members of City Council, either grant permission or do not grant permission for a public hearing. I think you are out of order in making that request at this meeting and I so rule.

Mr. Flaherty:

Nevertheless, I think it is my duty to point out the discrepancies and if I feel the terminology is ambiguous and vague, I think it should be pointed out and I think the questions should be committed to the floor to find out why it doesn't contain specifically these streets.

The Chair:

Mr. Flaherty, I believe, is the man who has to do with this Chairmanship. It comes under the Committee on Planning and Redevelopment in the Department of City Planning.

Mr. Flaherty:

No. Public Works.

The Chair:

Public Works and City Planning and I believe Mr. John Mauro is one of the Directors involved. Insofar as I am concerned, I am for public hearings but I am certainly not going to break the rules of City Council to grant you or anyone else a public hearing until such time as you process it in the correct way.

Also

Which was read.

The titles of the bills were read and agreed to.

Mr. Flaherty:

Mr. President, before we call the roll, I think it is my responsibility to at least make the motion that we cure the defect in Bill No. 2273—that the bill is

vague and ambiguous for not saying, specifically, the streets to be rehabilitated by the \$1.3 million Bond Issue. I am going to move the ordinance be amended to include, specifically, the 19 streets, and the portions of them, to be included in this resurfacing and rehabilitation program. While it does not cure all by objections, it does cure the ambiguity which now says "19 City streets."

The Chair:

The clerk will call the roll.

Madam President, under a point of special privilege, I would like to request the Chair to have a parliamentary ruling on a motion accepted here of re-committal of a bill after that bill was defeated. Before any further action is taken on this bill, I am requesting the Chair to have a parliamentary rule and if I am wrong, I will stand corrected. My position is, it is illegal and improper and as far as we are concerned here, this bill has been defeated.

The Chair:

Will it be satisfactory to you if I ask a committee of two to report on your request rather than to attempt to clarify it today?

Mr. Kamyk:

I had an experience in the State Legislature in Harrisburg, where a bill, one time, was passed in the House and it was moved that the vote by which the bill was passed be reconsidered. The House accepted the motion, only, at that time, the second motion was to put it on a Final Passage Postponed Calendar. We don't have such a thing here and that is why I moved the bill be re-committed. I do not think the bill got a fair shake.

Mr. Fagan:

I am familiar with the way they operate, too, in the House of Representatives, but this City Council is a completely different body, under different rules, and I am still asking for a rule of parliamentarian as it applies to City Council in Pittsburgh, and not in the House of Representatives in Harrisburg.

The Chair:

I ask Council if they will accept the decision of the Chair that a Committee of two be appointed to research the matter and make a report, on Wednesday morning at Committee meeting? What is your pleasure? Do I hear any agreement?

Mr. Kuhn:

I would certainly say it was appropriate that there be a committee of Council to make a report to Council at our next Committee meeting or next Legislative meeting, at the direction of the Chair, and I so move.

Which motion prevailed.

The Chair:

I so order. Mr. Kuhn, will you be kind enough to serve as a member of that committee, and also, Mr. Flaherty?

And upon their acceptance, they were to report the parliamentary ruling on Bill No. 2075.

Mr. Kamyk moved

That Mr. Counahan and Mr. Leslie be excused for absence from this meeting.

Which motion prevailed.

Mr. Mason moved

That the Minutes of Council of Monday, April 7, 1969, be approved.

Which motion prevailed.

And, on motion of Mr. Mason

Council adjourned.

UNFINISHED BUSINESS

Mr. Kuhn:

Madam President, the Rules of Council provide that Roberts' Rules Of Order will prevail. With respect to the business of Council at last Monday's legislative meeting following the vote taken on the bill, there was a motion made by Mr. Kamyk for the reconsideration of the action taken by Council on the bill. Examination of the rules, particularly rule 36 of Roberts' Rules Of Order, satisfied me and Mr. Flaherty that the motion made by Mr. Kamyk and seconded by me was out of order and should have been so ruled by the Chair at that meeting because a motion for reconsideration can only be made by a member who has voted on the pre-

vailing side. In the case of the bill which was before us last week, the only member of Council who voted on the prevailing side was Councilman Fagan. He, therefore, was the only member of Council who could properly move for reconsideration. We also noted, however, that rule 36 of Roberts Rules Of Order provides that a motion for reconsideration, if made by a member who voted on the prevailing side, can be made, not only on the day on which the action was taken, but also on the next succeeding legislative day. Therefore, if such a motion were to be made today by Mr. Fagan it would be, as we read the rules, in order.

Mr. Fagan moved

That being on the prevailing side, at this time, I move for reconsideration of Bill No. 2075.

Which motion prevailed.

The Chair ordered Bill No. 2075 to be considered on final action.

Mr. Flaherty presented

No. 3106. Report of the Committee on Planning and Redevelopment for April 14, 1969, transmitting one ordinance to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

An Ordinance entitled, "An Ordinance amending the Zoning Ordinance, No. 192, approved May 10, 1958, as amended, Zoning District Map Sheet Z-S20-0 by changing from 'R4' Multiple-Family Residence District to 'R5' Multiple-Family Residence District all that certain property bounded by: Brownsville Road; East Woodford Avenue and the 'R2' Two-Family Residence District east of Brownsville Road; 29th Ward."

Mr. Flaherty	Mr. Mason
Mr. Kamyk	Mrs. D'Ascenzo

And there being three-fourths of the votes of Council in the affirmative, the bill passed finally, in accordance with the provisions of the Act of Assembly of May 11, 1921, which provides that where a protest is filed against a proposed zoning amendment a three-fourths vote of all the members of Council in the affirmative shall be required for final passage.

Whereas, under said contracts, there presently exists certain unclaimed enrollees' payroll checks; and

Whereas, under said contracts, it is required that said unclaimed enrollees' payroll checks be returned and surrendered to the United States Department of Labor in order to complete the close-out package under the following stipulation:

The Department of Labor will pay the claims of those individuals whose checks were cancelled or have not claimed 'cash' wages."; and

Whereas, in order to comply with the City's obligations under said contracts, authorization and warrants should issue to the United States Department of Labor in the amounts of \$371.52 on Project No. R2-6018-40, and \$235.36 on Project R2-7094-40, in order to return and surrender unclaimed enrollees' payroll checks;

He was notified by Mr. DiNardo, our City Clerk, that a public hearing had been set for today, Monday, April 28th at 2:10 P.M., Council Chambers, City of Pittsburgh. If not, what is the wish of Council?

Mr. Kuhn:

Madam President, I believe in the absence of the petitioner at the hearing scheduled by Council, we should proceed with our business in the usual order.

Mr. Mason:

Madam President, may I ask the City Clerk when the communication went out from this office to Mr. Owens?

Mr. DiNardo:

April 23, 1969.

Mr. Mason:

Then it is reasonable to assume he would have received this communication in due time to be here at the present time.

And there being two-thirds of the votes of Council in the affirmative, the bill passed finally.

Also

Bill No. 3081. An Ordinance entitled, "An Ordinance transferring the sum of \$2,000 from Code Account No. 914, Mayor's Office—Supplies, Equipment, Miscellaneous Services & Materials, City Funds, to Code Account No. 922, Supplies, Equipment, Miscellaneous Services & Materials, Federal Funds."

Which was read.

Also

Bill No. 3088. An Ordinance entitled, "An Ordinance appropriating and setting aside the sum of \$50,000.00 in Bond Fund No. 215-, Department of Parks and Recreation from Bond Fund No. 215-, Department of Parks and Recreation, for the payment of the cost of Engineering Expenses."

Which was read.

Mr. Flaherty:

Madam President, I have one question on one of the bills. Bill No. 3101, basically, my question is to the form of the bill. We're asked to appropriate \$300,000 out of Bond Fund 215 for payment of cost of engineering and other necessary expenses in connection with general public improvements in the Department of Public Works. I really think we ought to say more about specifics in the bill since it is a large amount of money. I think we ought to more specif-

ically set forth in the bill, to the public, just where the \$300,000.00 would be spent and on what particular engineering programs. I think basically I am objecting to the form as being too general and too vague. For that reason, I am going to ask my colleagues to resubmit the bill for more specifics.

The Chair:

Councilman Flaherty, there is a similar Bill in Parks and Recreation for \$50,000. Do you want to include that bill?

Mr. Flaherty:

Yes, Bill No. 3088 and Bill No. 3101. I don't think it would hurt anything to recommit and hold another week, asking for more specifics from the Departments and I so move.

Mr. Leslie:

Madam Chairman, I would be happy to second the motion for the simple reason, rather than make any lengthy delay on that bill, I think one week won't hurt it. However, we do have a program on capital improvements laid out before Council. I am sure it is difficult for everyone to remember what is included in that program and it cannot be projected what will be required to be done in the future to keep our sewers and streets in good shape. However, I know Colonel deMelker will be able to satisfy anyone who wishes to question anything. I ask that this be delayed one week. We do have this ambitious program in our capital improvement program and I think we do have to start but I have no objections and second that motion.

Which motion prevailed.

Mr. Baskin:

Madam President, I would like to comment on that. As far as the form of this bill goes, I have no objection to a week's delay, but as Councilman Leslie pointed out, the capital improvement program was presented to Council and also to the public sometime ago. A number of stories, in detail, were printed and a public record is available to see.

Secondly, this is simply a sum appropriation and as Council well knows, no engineer will be appointed without a specific ordinance naming the engineers, the architect, and the amount of money involved and the specific project. As I said, if everyone wants to send this bill back, its alright, but the form of the bill coming through in this manner for final passage, is because it is simply a general appropriation ordinance.

Mr. Kuhn:

I would be prepared to vote against this motion if Mr. Leslie hadn't seconded it because I believe we have had adequate information with respect to the capital improvement program. Furthermore, this matter was in Committee last week and the opportunity was available then to go into it in further detail. I quite agree with Councilman Baskin's statement about the specific application on a particular project being one to come before us so that if it is appropriately before us today for final passage, I would be against the motion to recommit if not for Councilman Leslie's seconding the motion.

I would like to ask Councilman Leslie, is there anything different today than last Wednesday?

Mr. Leslie:

No, I don't think so. But I did have a question asked of me by another member of Council. I thought perhaps the explanation of the bill was given when he had possibly had business elsewhere and I would give that respect to any member of Council. I am prepared to vote for this bill and I am satisfied with it but a week's delay is not really important except to those who may want to ask some questions.

Also

Bill No. 3091. An Ordinance entitled, "An Ordinance authorizing and directing the Mayor and the Director of the Department of Lands and Buildings, on behalf of the City of Pittsburgh, to enter into an Agreement with Meucci Engineering, Inc., for engineering services, including the preparation of drawings and specifications needed for the

Which was read.

Also

Bill No. 3101. An Ordinance entitled, "An Ordinance appropriating and setting aside the sum of Three Hundred Thousands (\$300,000.00) Dollars from Bond Fund 215 for the payment of the cost of Engineering and any other necessary expense in connection with General Public Improvements within the City of Pittsburgh, to be carried out by the Department of Public Works."

Which was read.

Mr. Flaherty

On another matter, I asked for a recommittal of two bills, 3088 and 3101, and Council was kind enough to grant me an extension. Since that time, I have met with Colonel deMelker, Department of Public Works, and I have received a communication from Director Calliguirri concerning the requests. I would like the record to show that after having met with them the total of the \$350,000, which is mostly engineering expenses, is the actual specific appropriation, and is mostly for salaries to be paid within the two Departments for those employees that are working on Capital Improvement Programs.

I have no objection to the two bills now that I know where the money is going. I did discuss with Colonel deMelker and learned that there is a problem and I think perhaps the problem is that the Directors do have a difficult burden in determining or separating Capital Improvement money for our employees from general operating funds and I recognize it and I'm sure my colleagues know too that some employees may work from time to time on general funds for Maintenance programs and other types of capital improvement programs.

It is presently a difficult allocation or separation problem of how to allocate a fund toward a specific program. In discussing this with the Colonel particularly, there was a need for a cost accounting system in his Department to aid him in the allocation. At the present time it's kind of an arbitrary decision that he has to make and it places undue pressure on our Directors. He has to make a kind of a seat-of-the-pants decision on what funding goes to general maintenance and what funds go to Capital Improvements. My only thought would be, as a result of this, that Council ought to consider appointing a committee to study the allocation problem in the departments, particularly on the allocation of Capital Improvement funds to our own employees.

But I have no objection to voting for the bills, but that is the result of my discussion with the Directors.

The titles of the bills were read and agreed to.

The bills were read on final action.

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken, agreeably to law, and were:

Whereas, Title VI of the Civil Rights Act of 1964, and the regulations of the Secretary of the Department of Hous-

MOTIONS AND RESOLUTIONS

Mr. Baskin presented

No. 3254. Memorializing the President of the United States to reconsider the Anti-ballistics Missile Plan.

Whereas, the President has cut \$2,900,-000,000 allocated for the health and welfare of the American people from the forthcoming budget; and

Whereas, the City of Pittsburgh is in dire need of federal funds to cope with the urban blight, lack of jobs, housing, education, health, air pollution, and the problems of poverty and the aged; and

Whereas, the proposed federal cut will further reduce the funds allocated to Pittsburgh when in fact Pittsburgh and other cities require massive additional federal money to meet their needs; and

Whereas, the highly controversial Anti-ballistics Missile plan of the Nixon Administration would seriously hinder the large scale commitment needed for our domestic urban problems; and

Whereas, many prominent public officials, such as former Supreme Court Justice Arthur Goldberg; former Vice President Hubert H. Humphrey, Senators Michael J. Mansfield, Fred Harris, Edward M. Kennedy, George S. McGovern, Richard H. Schweiker, Sherman Cooper, Clifford P. Case, J. William Fulbright, as well as Congressman William J. Green, and Mayors Jerome P. Cavanaugh, John V. Lindsay, Richard Hatcher, Joseph L. Alloto and Carl Stokes, have spoken out against the Anti-ballistics Missile plan, Therefore,

Resolved by the Council of the City of Pittsburgh, That we hereby memorialize President Richard M. Nixon to reconsider his proposed Anti-ballistics Missile Plan and the contemplated reductions in the health and welfare portions of the forthcoming budget; and

Resolved, by the Council of the City of Pittsburgh, That a certified copy of this resolution be forwarded to the President of the United States, the Vice President, the President pro Tempore of

the Senate, the Speaker of the House of Representatives, and the Senators and Congressmen representing Pennsylvania in the Congress of the United States.

Which was read.

Mr. Baskin:

Mr. President, I move the adoption of the Resolution and in support I'd like to say that I think this is the way of bringing home, perhaps, to the administration in Washington, the desperate need of the Cities for more Federal aid rather than less.

I think the problems here are at home in Pittsburgh are typical of all of our Cities on housing and employment for the hardcore unemployed and on the necessity for increasing need to education. They require a different perspective on priority.

It seems to me that instead of spending billions of dollars on a method of defense that even some proponents admit they are not certain of, as against spending on the obvious need crying out for relief, that there can be no decision other than that to put the money into the Cities rather than into this program.

I think I don't have to say for myself that we are all for defense, when it's necessary but this all comes down again to where are you going to spend your money. First, it seems to me with all the money we are spending on the military and the relatively small sums we are spending on the Cities, that we ought to give some priority to our problems,

Which motion prevailed.

Mr. Mason moved

That Mr. Leslie be excused for absence from this meeting.

Which motion prevailed.

Mr. Mason moved

That the Minutes of Council of Monday, May 12, 1969, be approved.

Which motion prevailed.

And, on motion of Mr. Mason,
Council adjourned.

Mr. Kamyk	(Pres't)

Ayes 9. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mrs. D'Ascenzo:

Gentlemen, I would like to mention at this time that there is one day a week, Saturday, which is free to the general public. It has been discussed that if another time will be necessary for free admission, it will be so considered by Council but; as of now, Saturday is a free day for anyone to come to the Aviary. Also, there are other times during the week when organized school groups, or other organized groups of children properly chaperoned will be admitted to the Aviary anytime, free of charge.

The problem is that we don't want to deprive people of coming to the Aviary; if they are unable to pay the nominal charge for admission.

In approximately six months Council should review the free attendance on Saturday and have some knowledge about the free day. If, after such a review, Council finds that Saturday is not sufficient for free admission, then other times will be considered.

Mr. Counahan:

Thank you, Mrs. D'Ascenzo.

And on motion of Mr. Mason,

Council adjourned.

The Chair:

I just had a discussion with Reverend Cox in regards to the Aviary. They have quite a delegation here, a representative group of the neighborhood. Their claim is, number one, that they have a park facility there but that there are an awful lot of children there and no toilet facilities. The only toilet facilities there are in the Aviary and it's rather expensive to pay for. It's a rather high fee for using the toilet. This is the number one complaint.

The next is the depth of the pool. They claim it's too dangerous for the children there. I told them that the fee has already been passed by City Council and is really in effect. I advised them to send me a letter and I would take the subject matter up before Council. If we haven't anything here before us at this particular hearing, they will have to send a letter to me. There isn't a bill or anything else. That is my advice to them and if you have any suggestions, I would be glad to hear them.

Another claim is that this thing was rushed through Council and they didn't have an opportunity to be heard. That I'm not familiar with. I don't know anything about that particular problem. I wasn't there at the time. If I was I might not have changed things, but I wasn't here then. They claim the Department of Parks and Recreation has been requesting meetings and information from them for quite some time and hadn't been able to get it. If

they send a letter in here I told them they would have a hearing before Council and that is that.

Now, anything you want to do about it now? Do you want to hear from one of them now? If so, why we'll let somebody represent them and they can explain it better than I. Who wants to represent the group? Kindly make it brief because, as I said, there is nothing before us.

Mr. Thomas Cox: My address is—
1201 Resaca Place
Pittsburgh, Pennsylvania 15212.

I think if we have a very short time I would like to talk about the safety of the children in the pool. There is not adequate supervision for the fact that the children are swimming in the water, which is about four feet deep. I understand that Park Police are supposed to police it but, of course, they are not able to be there all the time. There is also the fact that the water is very dirty. I heard there was supposed to be a filter system but it is not installed yet. I think the most immediate, pressing condition is the safety of the children and the bacteria in the water. Beyond that we want to have a hearing with Council and the appropriate people will be here.

The Chair:

If you send me a letter I'll refer it to Council and, of course, you know we have our regular hearings.

Mr. Cox:

Can we lower the level of the water or put some sort of lifeguard on duty there?

The Chair:

We will take care of the depth of the water.

Mr. Cox:

Alright. Anything you can do about watching the facility more frequently, A lifeguard or more Park Police?

The Chair:

We cannot place a lifeguard there because it's not to be used for swimming in the first place.

Mr. Cox:

But the police simply are not able to keep the children out.

The Chair:

If it were used for swimming of course, we'd have to put a filtering system and a lifeguard and everything else in connection with it. That is the way I understand it. I may be wrong. That is just the way I understand it.

Mr. Carl Wyler: My address is — Northside, Pittsburgh, Pennsylvania

We have been through two summers with this Avlary. The new lake was filled on May 23. New lights for some reason were covered with burlap bags and on Memorial Day it was open to the public. It's been proved to be a moderate attraction for children and adults alike.

Suddenly the park was filled with people and what has happened. As of yesterday the Avlary started charging admission. Admission for the casual use of the facility. The important word is casual. The lake becomes continuous game to the children and the Park Police. Something has to be done. The Ordinance under order is to keep people out of the lake. The lake is for strolling around and not to be used for swimming. Most of them, the children, are going to use that lake one way or another. We have seen this pass, weekly and daily.

The police believe the kids are in the lake and having a good time. One policeman was seen waving a billy stick at a six-year old telling him he can't ride a bicycle in the park. There is a great deal of trash left behind in the park.

When the bulldozers first appeared in the park and tore out two ball fields and a parking area, a sizeable group of Northside residents rejected the re-

moval of those facilities. We tried to tell you then that we need this park. It's the only recreation area we have. We were concerned then about what use the lake would be put to and that the facility that was destroyed would not be replaced. There was talk of wading, toy boating and fishing. We say now the lake would be used one way or the other.

The Chair:

If you make application we are going to set up a hearing so you can go all over this. Insofar as the children are concerned we are going to see if we can have a guard over there, not a lifeguard. Somebody to keep them out of the water and later on, when you have your hearing, you can bring all this up. There is no use of doing it today because, as I told you to start with, we have nothing before us.

Thank you. Now Reverend, if you will send that letter in you can address it to me as President of City Council and we will go from there. I want to thank you for coming.

MOTIONS AND RESOLUTIONS

Mr. Flaherty:

There was a resolution prepared on Model Cities but a meeting was to be held last night at 7:30 between Mr. Farkas and a group from South Oakland and I wonder if we can have a report on what transpired at the meeting.

Mr. William Farkas, Urban Redevelopment Authority, Pittsburgh, Pa.

Mr. President and members of Council, I'd like to make this report. A meeting was called last night in order to meet with the executive committee of the neighborhood planning team of the Oakland Model Cities Community.

The meeting was attended by only six representatives from Oakland. With that remark, I would assume that anything that happened last night isn't conclusive. However, those that were there indicated that we should report back to you as follows, and they spoke as individuals, not as a neighborhood planning team. Their statement was, one, and most important, they do not wish to hold up the filing of the application. Two, they still have this reservation concerning how the staffing will occur under the Commission's structure. Their feeling is shared, by the representatives in the audience that in some fashion the staff of this Commission must be made directly and be accountable and responsible to the citizen group in the Oakland community rather than having a central staff directly accountable to the Commission. Thirdly, at last night's meeting a major program component concerning education was clarified to the satisfaction of the chairman of the educational committee in Oakland. However, it was reported that there were still some reservations about specific program components. In my judgment they aren't major but there are adjustments. We again

stated that there is this flexibility in the document to provide for a revision of staffing. One, to notify me of the concerns of the Oakland neighborhood planning team, and secondly, the document so states that adjustments can be made in that program after funding is received provided that these adjustments are not major adjustments.

I can speak again for the staff but let me say the following. I think for a number of reasons there has been a rather awkward situation developing between the staff, the Oakland field staff, and the Oakland citizens.

I think the phrase could almost be a breakdown in communication. Whether it extends beyond that to mistreat or fear or what have you, we have stated the situation does exist. Those that were there last night, and one of the representatives feels I'm not stating the sense of last night's meeting correctly. Those that were there said they felt that the air as it were could be cleared. A new sense of harmony could yet be achieved and that out of this kind of confrontation a greater good could be achieved.

In the light of this report, therefore, it would still be our recommendation to ask you to permit the filing of the application in order to meet the fiscal year deadline, which has been prepared to us by the housing Urban Redevelopment Authority officials in charge of the Model Cities program. There are some representatives from Oakland in the audience and you might want to hear from them. We were also told last night that there will be a call for a public hearing, which I think is a good step. I think the hearing in no way has to defer your action because there is sufficient time to still hold this hearing before this first step of approval of the application is computed and if you will recall we indicated early in the planning stage that Council was still the last port of appeal and if any differences did develop in this planning process, the difference could be placed before City Council.

Mr. Flaherty:

Do the South Oakland citizens know that the planning will still go on even if the application is filed?

Mr. Farkas:

The planning will go on through the entire life of the Model Cities program because that is the intent of the Model Cities program. There will be continual planning in order to make the adjustments on the spot that has to be made in order to bring about the objectives. In this public process of decision making in order to achieve objectives that are not now obtainable under existing programs, both Federal and State.

Mr. Flaherty:

Was Mr. DePasqual at the meeting?

Mr. Farkas:

He was not, and we were advised that he was out of town.

Mr. Flaherty:

Do you think we had enough notice before the meeting? How much notice did we have?

Mr. Farkas:

In normal times I would think the notice was not sent in due time. Telegrams were immediately sent after our meeting with Council Monday morning. You should have at least ten days or a week.

Mr. Flaherty:

What is the deadline for filing the application.

Mr. Farkas:

The deadline, as was originally planned, was the end of May. We have been holding onto our teeth. If we could get it in the early part of June - - -

Mr. Flaherty:

The only thing that bothers me is that if he is out of town and wants to meet with you would it impair the planning if we held the resolution back until Monday. But at the same time I want to see him after the meetings.

Mr. Farkas:

Councilman Flaherty, I would suspect that I don't know, but I think if we had the time I think we should meet. I think the need for a hearing before City Council would be good.

Mr. Flaherty:

I mean for you to have a meeting with Mr. DePasqual before we place the resolution on record. Would that be possible?

Mr. Farkas:

We would jeopardize the filing.

Mr. Flaherty:

Between now and then?

Mr. Farkas:

I think the number of days to meet the reviews and filing application, in my judgment would be very touchy.

Mr. Flaherty:

How did we arrive at that deadline? It's kind of vague to me.

Mr. Farkas:

Mr. Councilman, the Federal Government has applications from forty-five cities to review.

Mr. Earl Onque: My address is 5815 Ferree Street, Pittsburgh, Pennsylvania.

Between now and June 20, midnight on June 30, a letter of tender must be in the mail to all the Cities that have been approved. In the process of reviewing those application in Washington, we agree that they don't know how many are doing it, but if we don't get this for them very quickly we are going to go to the end of the line. Which means by June 30 we won't have a commitment. That means that for Pittsburgh we then get in line behind all of the other Cities that will get the first line as to the next year's appropriation of funds. If we can get in now and get the earmark funds for Pittsburgh, we will have a much better

chance. We have been trying to hold several meetings of this nature. There hasn't been much confrontation with the administrative officials of Oakland. We have had no success with the administrative officials in Oakland. Therefore, this is the reason I would recommend strongly that we do submit because at an earlier meeting there was no confrontation over all the points of the program actively as to how the administration could be administered.

Mr. Flaherty:

Are there any people from South Oakland that want to be heard? Does anybody else want to speak?

Mr. Charles McAdoo:

I worked with the Oakland Model Cities program for the past year. I attended the meeting last night and I gave my personal approval of not delaying application for risk of losing time in the Federal process in Washington. However, I don't know whether or not the application requires Oakland's approval. If it does need Oakland's approval I must, in all honesty, seem to think the people here agree it has not received approval as such because it has not been acted upon by the neighborhood planning team and Mr. DePasqual wasn't present at the meeting. So, I think it would be important that before anything goes final, that even before Council holds a public hearing on the matter, that Council or someone meet with Mr. DePasqual and the Model Cities executives people in the Oakland area, before any final action is taken. I don't want our personal approval or personal indication of a desire not having delayed taken as approval of the package that exists, because this is not the case. I think the neighborhood planning team in Oakland should meet and approve the package as it is.

Mr. Fred Finallo: My address is 3213 Joe Hammer Square, Pittsburgh, Pa.

I think so. I appreciate the time at this point, but I still think the Oakland citizens have a right to act on this one through its neighborhood planning team and to give their voice on the

package before accepting this final action. I have to agree with this gentleman, and Mr DePasqual who is Chairman of the Planning Committee will be back in town tomorrow.

Mr. Flaherty:

Mr. Farkas, I recognize that you are faced with time and at the same time I hesitate to take action with the neighborhood President not available, and I'm going to hold it up to Monday, if my colleagues will permit, which is only a few more days and see if you can meet with Mr. DePasqual.

Mr. Kamyk:

Mr. President, after listening to this discussion I think we are jeopardizing this application of Oakland and it will be jeopardized as far as I understand. I don't think passing the resolution and authorizing the application will hurt a public hearing in any way. Because I think that there are many people who are interested in getting that six point one million dollars from the Federal agency or Government. If we jeopardize this application and later on use this as an excuse then we will really be embarrassed.

Mr. Fagan:

Mr. President, as I understand the statements that were made here by Mr. Farkas, that it will not at this time jeopardize the application. This may bring about a reaction that will be best for the interest of the people in the City of Pittsburgh. I think the extension to Monday is very reasonable and the plan can be much more successful if it had the overall participation of the various groups and I see no jeopardy in delaying it at this time.

Mr. Flaherty:

Mr. President, I move that we hold action on this until Monday afternoon's meeting to give the neighborhood an opportunity to meet with Mr. Farkas and his staff.

On the motion of Mr. Flaherty the ayes and noes were taken, agreeably to law, and were:

MOTIONS AND RESOLUTIONS

Mr. Flaherty presented

No. 3378. Whereas, the City of Pittsburgh has prepared a comprehensive city demonstration program; and

Whereas, the Council of the City of Pittsburgh, finds that the program is necessary and desirable in order to improve the living conditions of people living in the model neighborhood; and

Whereas, the Council of the City of Pittsburgh desires that the comprehensive city demonstration program be submitted to the Secretary of Housing and Urban Development (herein called the Secretary) for funding under Title I of the Demonstration Cities and Metropolitan Development Act of 1966;

Now, Therefore, be it resolved by the Council of the City of Pittsburgh that:

The Mayor or his successor is authorized to submit to the Secretary the comprehensive city demonstration program and such supporting and collateral material as shall be necessary.

Which was read.

Mr. Flaherty moved

The adoption of the Resolution.

Mr. Baskin:

I intend to vote for this bill although I believe it's a bad one and I think at present it is an unworkable

program for many reasons. I want to explain why, but before that I want to say that I am voting for it for several reasons.

One, I think the people have been led to expect a great deal from this program and we are at a stage of the proceeding where it seems to me to vote against it, particularly in view of the fact that federal funds are being applied for, would probably be a serious psychological setback to the community.

Secondly, I think sometimes people think programs are the answers to the problems so that you almost have to go through the pains of showing why a program is unworkable in order to get on with the right way of doing the job. I think as this program develops it will become apparent why it cannot succeed as it is presently planned.

The third reason, and I admit it is not a very good one, is that federal funds are involved here, and if we didn't get it some other city would get it and there are certain aspects to the program that are beneficial even though I think there are parts that are not.

So, for these reasons I will vote for the resolution. I want to explain why I think the Model Cities Program as it stands now will let the people believe they are getting the solution which will not materialize. There are some minor complaints before I get to the major criticisms.

There is a great deal of staffing and expense in this program and what you are doing is building up another echelon of governmental bodies, although you are doing it through the so-called citizens group. The amount that you are going to spend in administration and duplication of efforts will take a great deal away from the program.

Secondly, the program as it is planned is so vast in scope and is going to take such massive infusion of federal funds that I don't think people realize the limitations that we are now working under.

There is no cost estimate to these projects and I don't think anyone has any idea what the cost eventually

would be and I think you will find that unless the federal government intends to devote billions of dollars to the problems of the cities in the next few years this program would fail because of lack of funds necessary to make it work.

Also, the program is restricted to one area which I think will prove to cause a great deal of difficulty in the future. It is true that the Model Cities area is probably one of the worst areas in our City and needs as much work, if not more, work than any other area.

However, there are also other areas in the City which are in dire need of some of the same programs that are embodied in the Model Cities Programs for the area that is circumscribed by it, and I think you are going to find in the future that if you want to continue with the Model Cities Program and devote whatever funds you can get to this one area you are going to have a very unhappy situation on your hands in terms of the fact that many citizens and other areas of the City are going to want some of the same programs for their own areas and, I think, with some justice.

I think part of the North Side, for example, if you study the Model Cities programs and the statistics that go along with it, has the same problems with almost the same intensity, as the Model Cities program area has, and it seems to me that in the future unless programs are carried out for areas such as that, as I said before, you are going to arouse a great deal of antagonism to this program in the City among those who have not benefitted directly from it.

But the fault which I think is the worst, and which I think will make the program fail despite anything else that happens, is the amount of control that is put in the hands of the so-called citizens' groups. I know that there has been a great deal of talk in the last several years about community participation and I think this is a great deal to be said for greater communication between the residents of the various communities and the governing body. That certainly can't hurt and can help a great deal, but the difficulty with this program is that it is giving government-

tal funds and governmental responsibilities to non-elected officials in the various community groups and what you have then is the discharge of governmental obligations without responsibility to the electorate.

That kind of a system never can work, never has, and it never will. Furthermore, what will develop in the way of the Model Cities program is set up now, is competing groups in these various communities and what you will have then as it develops is a bureaucracy of its own in these communities and the same kind of "political" fighting for control of the funds and jobs, and so forth, in these communities that you now have with your political system on a City-wide level. The only difference, and it is a marked difference, is that at least when City Council votes on something or two parties take positions, they are out in the open. The public sees what is happening and there is a responsibility to the electorate that the electorate can act on if it subsequently decides to do so.

Furthermore, these community groups do not represent a large measure of the vast population that they claim to represent. For example, in the Model Cities program there was an election for the community representatives and approximately eight per cent of the community voted in this election. Now whatever else you would say about elected officials running a program they are elected by an overwhelming majority of the electorate. I think in our municipal election you have approximately sixty-five to seventy-five per cent of the registered voters who participate. Here you are going to turn over control of millions of dollars to private groups, who, in effect, really don't answer even to their own community.

Now although there are controls set up in the Model Cities program which would make it appear that the City has the final say, that it is the elected officials who are responsible to the taxpayers, and in the final analysis have the final control of the expenditures of these funds, I think, as a practical matter it will be difficult to apply. For example, we find ourselves in that position right now with this program. Here is a program that was developed be-

tween the groups and certain agencies over the past year without much participation, if any, by the City Council, and we are told toward the end that here is the program and we should apply for it because otherwise we will lose the funds, and so forth. We are faced with a situation where if you vote against the program it seems that you are voting against the kind of solutions that are necessary for the people's welfare, so that you have no choice.

The practical matter, and I think what is going to happen in the Model Cities program, is that by the time the choice comes to the elected bodies as a practical matter there will be very little, if any, choice. So I think, if I can use the term, that what is happening is that we now have a fad in government to try to appease the frustrations, and there are many frustrations of a great many people because government hasn't been doing the job that it should. We are trying to appease those frustrations by this fad of community participation, and we are doing it in a way which I think eventually will not work. I hope that perhaps in the next year some of these things will become apparent enough so that changes can be made in the Model Cities program which will enable us to properly funnel the funds and the talent necessary for the kind of job that is programmed in the Model Cities venture. I just want the record to note why I'm voting for it and why I think that it's not a workable program.

The Chair:

Anybody else care to be heard?

Mr. Kuhn:

After what Mr. Baskin said I wonder how anybody could find anything to vote affirmatively for. The notion of citizen participation I believe was carefully thought in Washington. It may be controversial and have disadvantages to it, but the idea is that the people in the ghettos and the disadvantaged neighborhoods of our cities are in a position to know their problems and need to have some say. Obviously it needs no defense.

The Model Cities Program is a com-

mitment of HUD, the Department of Housing and Urban Redevelopment in Washington, to a program that is intended to meet the needs of the slums in our cities. I propose to vote for this because I think that, inadequate as it is, and as feeble as it may seem, nevertheless it is the best possible solution for the needs of this City, which in all good consciousness, I think we and our planning staff and our Redevelopment Authority carefully considered in designating that part of this community which most needs the kind of services and the kind of attention that the program can provide.

I think there are going to be problems not only in Pittsburgh, but in other cities as well, if our national government does not provide the additional funds that are needed for this program. But certainly we should not at this point yield to any despair. This is a program that can be effective. Many people have spent a great deal of time thoughtfully working towards these goals and I think it is important that we continue moving toward them.

The Chair:

Anybody else care to be heard?

Mr. Mason:

Mr. President, I concur with what the previous speaker has said and, of course, this is the first time that I find myself in Council in opposition to Mr. Baskin when he makes the assumption, or the presumption, that such a program is not unworkable. I believe that the framework of the table of organization as proposed by Mr. Farkas and his staff, in which a commission would be set up to try to make these things workable in the neighborhood with citizen participation, is some degree of protection for the Mayor and the City Council. Ultimately, Mr. President, the Mayor and City Council are held responsible for this six point one million dollars.

The fact that other cities may get this money if we do not vote favorably on this resolution bothers me just a wee bit and I think that we ought to recognize, Mr. President, the term "Model Cities." It was an experiment in the beginning

to determine the extent of citizen participation by the citizens, not citizen decision-making, to meet the needs of the moderate neighborhoods.

This is a demonstration project and I believe the City of Pittsburgh has the kind of citizens in the areas as we have indicated. These people have a sense of responsibility and they know their problems and know them well, and this six point one million dollars can best be spent in that fashion.

I would be unprepared to vote for this resolution, Mr. President, if Washington said in any way, shape, or form, this six point one million dollars were being spread throughout the City. One of my colleagues this morning said that if this can be workable and they can develop, as a result of these demonstration areas, the kind of an area that I live in then there is no sense of competition.

I do not feel that in any way we are advocating ourselves as members of City Council through the work of this commission and a working staff at some given point. Have people who know what they are talking about and that begins at the neighborhood level and it goes to planning and I would urge, Mr. President, that there would be increased communication between the planners and the consultants and the neighborhood people to make sure we get the maximum amount in the model neighborhoods for the maximum dollars that we spend. Like it or not, the federal government sooner or later is going to have to pour more and more money into the metropolitan areas than one can imagine.

Thank you, Mr. President.

The adoption of the resolution,

Mr. Flaherty:

Obviously my nomination by the Democratic Party for mayor of Pittsburgh has placed me in an unusual position for approving the Mayor's appointments.

Any action I take at this time—for or against an appointment—has the unintended effect of weakening the Mayor's executive power or tying my own hands after the first of the year, should I be elected Mayor.

Therefore, I will abstain from any expression, publicly or privately, on any appointment unless my vote becomes necessary under the Charter Act.

I know that Mr. Cortese will not consider this expression of policy on my part in any way personally directed at him.

The Chair:

The Clerk will call the roll on the resolution.

The ayes and noes were taken, agreeably to law, and were:

Ayes:—

Mr. Baskin	Mr. Kuhn
Mrs. D'Ascenzo	Mr. Mason
Mr. Fagan	Mr. Counahan,
Mr. Kamyk	(Pres't)

Ayes 7. Noes none.

(Mr. Flaherty not voting.)

Which motion prevailed.

The Chair presented:

No. 3881.

Which was read.

Mr. Baskin:

On Bill 3416 I would like to know whether it is a condition of granting the building permit for the hospital and the garage be started at the same time. You know we have had difficulty with the hospitals in the past number of years on expansion of their facilities without any expansion of the parking space and we had several instances, four or five years ago, where parking was promised to us and not delivered.

So, unless the bill carries with it a condition that no building permit or occupancy permit be issued without parking facilities being there as promised, I would like to have this bill re-committed.

Mr. Flaherty:

Mr. Baskin, on page two, Section 2, I think it will cover it. I will read it. "This Conditional Use is approved subject to the condition that no Occupancy Permit shall issue until all applicable parking provisions of the Zoning Ordinance have been complied with."

Mr. Baskin:

I think so, but we had this once before and we were put under the gun when the building was completed, and I am just wondering if we have a letter on record from the Hospital board or some action by the board indicating that they recognize this provision of no occupancy permit being granted without parking and they acknowledge that is why they are getting it.

Mr. Kuhn:

Mr. President, the title to the Ordinance in Section 1 also provides that the Conditional Use is not only for construction of the additional parking of the hospital but also for the construction of the six-story parking garage for the automobiles involved. I would be glad, if Mr. Baskin needs assurance, to direct a letter to the Department of Public Safety instructing that no occupancy or other permit be granted until the Ordinance is complied with. But I think that the Ordinance does everything that it possibly can right now. The rest is up to the administration.

Mr. Baskin:

If the members of Council are satisfied that this Conditional Use will be met, I am too. I had my experience before, particularly in the Oakland area, and I want to make certain that when this facility is built the parking would be there and I think we can avoid some trouble later by making that commitment understood by the hospital people now.

The Chair:

If you deem it necessary, ask for a motion to recommit and take care of it.

Mr. Flaherty:

What I was going to suggest was really along the lines that Mr. Kuhn stated. As chairman of the committee I'd be glad to direct a letter to the hospital people and with a copy to the Public Safety Department and say that Council has suggested that Section 2 of the Ordinance must be complied with before any occupancy permit be granted.

The Chair:

Make a motion to recommit and we will handle it the proper way.

Mr. Flaherty:

I don't think we really want to recommit it. The bill itself meets Mr. Baskin's requirements.

The Chair:

If you want to recommit it, alright. If not, we will vote on it right now.

Mr. Baskin:

Are we meeting again, Mr. President, after our committee meetings on Wednesday? Can we recess this meeting? Could we recommit this bill, then on Wednesday's meeting still pass it.

Mr. Flaherty:

We have got nothing to recommit. The bill does everything that we can possibly do.

Mr. Baskin:

I have gone along with recommitting bills for other members of Council in the past.

The Chair:

Any second to the motion, No second to the motion? So, the bill is now before you on final action.

REPORTS OF COMMITTEE

Mr. Kuhn presented

No. 3568. Report of the Committee on Public Safety for July 7, 1969 transmitting one ordinance to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 3567. An Ordinance entitled, "An Ordinance providing for the letting of a contract or contracts for the leasing of helicopter equipment and the training of personnel to operate said helicopters, further providing for the periodic reports from the Director of the Department of Public Safety and

further authorizing the Director of Public Safety to enter into negotiations with other governmental entities for a cooperative program."

Which was read.

Mr. Kuhn

This is the helicopter ordinance about which Councilman Flaherty and I met with Commissioners Stalsey and Foerster on Thursday afternoon to discuss the matter. Director Cortese was present and Solicitor Maurice Louik. The Commissioners and Mr. Louik were quite receptive to the idea but would like to give it further study and take it up with various departments of County Government to see to what extent intergovernmental cooperation might be available in the leasing of helicopters for the City and for the County. As a consequence, they would like to meet again with us later this month to discuss the matter. We told them that we would proceed with this bill which we had introduced last Friday; however, the proposal for intergovernmental cooperation would require an amendment and I believe Councilman Flaherty has the amendment to offer in that respect so that we can have the cooperation and assistance of the County Commissioners in making the contract. Director Cortese is here in Council Chambers this morning if there is anything he would like to add that I may have omitted or if there are any questions with respect to the amendment to help in determining what action to take on it.

Mr. Flaherty:

Mr. Chairman, pursuant to the discussion we had with the Commissioners and as Mr. Kuhn pointed out, we do have the amendment which concerns the possibility of the County sharing the cost and use of the helicopters. That amendment is now in Section 3 of the ordinance before us, which would authorize the Department of Public Safety to enter intergovernmental contracts to share the use and cost of the helicopters.

Mr. Kuhn:

On the bill, as amended, I would

move an affirmative recommendation and in doing so, I would like to say the interest expressed by the County Commissioners and the attitudes as expressed by all who have participated in this, I think, are encouraging. I think this will subsequently make possible a more effective use of our City forces and make for a more effective local government and in the long run, may prove to be a more economical use of our forces that will justify the expenditure. We will be in a better position to judge, however, after the contractual period is passed and after Director Cortese has been in a position to provide us with reports.

Mr. Flaherty moves to amend Bill No. 3567 by supplementing Section 3, which reads as follows:

"That the Director of the Department of Public Safety is hereby authorized and directed to enter into negotiations with other governmental entities including the County of Allegheny and the Commonwealth of Pennsylvania to develop an intergovernmental cooperating program for the use of helicopters including the cooperative distribution of costs associated with such a program."

Which motion prevailed.

The title of the bill was read and agreed to.

The bill was read on final action.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken, agreeably to law, and were:

Ayes:—

Mr. Baskin	Mr. Kuhn
Mr. Façan	Mr. Leslie
Mr. Flaherty	Mr. Mason
Mr. Kamyk	Mr. Counahan
	(Prest)

Ayes 8. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. John F. Counahan, President
and
Council of the City of Pittsburgh
510 City-County Building
Pittsburgh, Pennsylvania 15219

Mr. President and Members of Council:

It is with mixed emotions that I hereby submit my resignation as a Member of this Council, effective as of August 4, 1969.

I have been given an excellent opportunity to make a contribution to our City in a different way, by participating in the growth and development of the Three Rivers Stadium, under construction by the Stadium Authority of the City of Pittsburgh.

It is the wish of the Authority Members that I assume the duties and responsibilities of Director upon my resignation from Council, in order to help achieve the goal of having the stadium ready in time for the 1970 baseball season. With the administrative responsibilities of the Authority assigned to me,

it will be possible for Mr. Mathison, Director of Construction, to devote all of his time to the construction work at this critical point in the program. For this reason I have tendered my resignation.

My resignation will not end my interest and participation in the affairs of the City of Pittsburgh. I will be doing all that I can to enhance the growth and development of this City.

I wish for my fellow Councilmen the very best in the coming election, and in their continuing efforts to resolve the many important problems facing our City.

Many thanks for your help and guidance and for your friendship which I will continue to value highly.

Sincerely,

/s/ Charles J. Leslie

CJL:dc

cc: Mayor Joseph M. Barr
Arthur H. Gratz, Chairman
Stadium Authority of the
City of Pittsburgh

Which was read, received and filed.

Mr. Mason:

Mr. President, I rise to make a motion to accept this resignation with deep regret and with some personal note with regard to the manner in which Mr. Leslie treated me as an individual. He will be deeply missed. His knowledge of assessment and knowledge of the City will be deeply missed by this Council.

Mr. Kamyk:

Mr. President, I too acknowledge that Mr. Leslie has been an excellent Councilman. He had the interest of the City of Pittsburgh at heart and our loss will be the Stadium Authority's gain for in that field he will prove himself a great asset also. I, too, with deep regret second the motion of Mr. Mason to accept his resignation.

Mr. Flaherty:

May I say a few remarks? I want to state to Mr. Leslie that I regard him

as a very good Councilman. I have no hard feelings and I wish you well, Chuck. My objection is not to you, Chuck. My objection was that the Stadium Authority acted hastily in appointing anybody, Chuck Leslie or anybody.

Secondly, and more importantly, I really object to them taking away a Councilman at a time when the work ahead of Council is rather monumental. I think, as far as the Stadium Authority is concerned, they could have waited until the end of Chuck Leslie's term, in which there is only a few short months left. It is nothing personal against Mr. Leslie. Nor do I think he is getting a double salary. It was a matter of courtesy by the Stadium Authority to this Council to make the appointment after he has resigned. I also think the position of Executive Director may be needed, but I don't want to create a vacuum on City Council at this time. I would rather see Chuck Leslie stay on Council at this time.

Mr. Baskin:

Mr. Leslie and I came to Council together and I wish we were leaving together, but I have got four more months to do. I would like to add to what the Councilmen have already said, that he has had a very good record at City Council and has been conscientious about his work and hasn't hesitated in taking an unpopular position on certain issues when he felt that they were for the benefit of the general welfare of the City and I know that this same consideration also was paramount in his decision to accept his present position. I don't agree that he was short-changing the City by leaving four months ahead of his term because the job that he is taking is of considerable importance to the City and one which will be important for him years to come. With Mr. Leslie's background with the Stadium Authority and with his background on City Council, I don't think there is anyone in the City more fit or more suited to take that important position, which is really a watch dog for the City of the Stadium Authority and I think it was in the public interest for him to take this position at this time.

I agree with all the other speakers that we all wish him well. I am sure his ability has been recognized and will be further recognized in this job. I just hope he can get us a winning ball club in that position.

Again, Chuck, lots of luck to you.

Mr. Leslie:

Mr. President, I don't go on the payroll until tomorrow at 8:30, so I can't make a commitment at this time. I will make no long speech now. My remarks will be made to my colleagues. Thanks to all of you. I'll miss this crazy business of politics and trying to run a City. I don't know how successful I have been but everything I have done has been an honest, earnest effort. I thank those that have made it possible for me to serve in this Council and I want to thank all of you personally. I wish you all well and happiness, and if there are any of my political friends in the audience, thank you all and God bless all of you.

The Chair:

Chuck, I'm sorry to see you go and I know you will be around and we will see you quite often. I wish you all the success in the world in your new venture.

Mr. Fagan:

Mr. Chairman, before we have final action on Bill No. 3353 there should be a parliamentary inquiry as to the number of votes to be necessary to pass this legislation.

The Chair:

The one on Greenway? Where the protest is? How many protests do we have and how many votes are necessary?

Mr. DiNardo:

We have twenty-eight protests in writing and I don't know what constitutes thirty per cent to require seven votes. Don Bryan is here from City Planning.

The Chair:

Mr. Bryan, answer that please.

Mr. Bryan:

We have taken the protests that were registered in writing to Council; we have taken them from Mr. DiNardo. We have one of those maps on the area that the Ordinance recognizes. Anyone of those could qualify the vote. In one of those categories there are objectors of somewhat less than five per cent. Twenty per cent is needed to qualify the vote. In one of the other categories the number of objectors is only one per cent. The sum total of the matter is that Council's vote is not qualified since the highest percentage of objectors in any of the categories would be five per cent. This tally was run this morning based on the names which we received from the City Clerk's office.

Mr. Fagan:

Mr. Chairman, does this include the names of all the petitioners that was submitted to City Council at the public hearing?

Mr. Bryan:

We tallied all of the names and written objections that we received from Mr. DiNardo. I'm assuming he forwarded to us all of the names.

Mr. Fagan:

I would like the names of all of the petitioners to make a determination whether the thirty per cent of objectors are present before we vote on final action of the bill.

The Chair:

Any objections to that request? Is there any particular way we can do it now?

Mr. Bryan:

I could communicate with my office and have the names and petitions brought up here and they could be made available. I could have the calculations brought up here also, probably within a half hour.

The Chair:

If there is no objection we will hold this section of the business over until such a time that we get the report.

Mr. Fagan:

It's agreeable to me and I want a decision and a parliamentary inquiry based on the votes needed to pass this, plus I want brought forward all of the protests and decisions so we can decide. Bring all of the protests that we have before a decision is made that will constitute action on this legislation.

The Chair:

Will it be necessary to get someone here from the Law Department? Mr. Bryan will take steps immediately to get the necessary information and, as I stated before, if there is no objection we will hold this part of the business until such a time that we receive this information.

Mr. Kuhn:

Mr. President, I would assume that Mr. Fagan's objection relates to all the legislation effecting the Greenway Project—Bills 3353, 3522, and 3523—although it is with respect to only one of those that a qualification of Council votes require more than a majority would take effect. That is to say if our vote is determined to be qualified with respect to Bill 3353, then the votes on the other two would be fruitless if it were found that Bill 3353 would not pass. As a consequence, I move to defer consideration of Bill Nos. 3353, 3522, and 3523, until Mr. Fagan's inquiry has been met.

Which motion prevailed.

The Chair:

If there is no objection, I think that is perfectly right. The Clerk will read the bills with those exceptions.

Also,

Bill No. 3417. An Ordinance entitled, "An Ordinance amending the

Zoning Ordinance, No. 192, approved May 10, 1958, as amended, Zoning District Map Sheet Z-N10-E16 by changing from 'S' and 'M2' Districts to 'R4' District all that certain property bounded by: Herron Avenue; the 'S' Special District north of Bedford Avenue and west of Herron Avenue; the northerly line of Lot Numbered 316, Block 26-N in the Allegheny County Block and Lot System; Lots Numbered 230 and 231, Block 25-S in the aforesaid system; Marcella Street; White Street; the 'R4' Multiple-Family Residence District west of Marcella Street; the unnamed way between White Street and Ridgway Street; Marcella Street; Lot Numbered 275, Block 25-S in the aforesaid system; the unnamed way between Marcella Street and Herron Avenue and Lot Numbered 284, Block 25-S in the aforesaid system, 5th Ward."

The Chair:

Mr. Bryan, do you have a report on the information relating to Bill Nos. 3354, 3522 and 3523.

Mr. Bryan:

I have a list of the names I received

from Mr. DiNardo. There are twenty-seven here. It is a list entitled, "Letters received against the Greenway Project." This is not the original. The original, I believe, is with the bill. This is a Xerox copy. We put these names on the map involving the rezoning. As it occurs, only six of the names on this list fall within the one hundred-fifty foot of the project area which, for zoning purposes, is necessary in order to make a person a legal objector. In other words, out of the twenty-seven names, twenty-one names are not within one hundred-fifty feet of the project, the rezoning area. Therefore, they are not legal objectors. I have an enlarged map which Mr. Brown is holding. I can show you where the six legal objectors do lie. This is going to be a little bit difficult to show. Jim, perhaps you will unroll it. I'll read from the list. There is Mrs. Louis L. Grimm on 1078 Woodlow Street; also a Mr. and Mrs. Louis Bachner, 1074 Woodlow Street; a Fred and Nell Koerbel, 1462 Steuben Street; Mr. and Mrs. J. Williams, 1461 Steuben Street; Mr. Joseph A. Grimm, 1464 Steuben Street; and a Mr. John F. Water, 1462 Steuben Street. Those are the only names on the list I received from the City Clerk which are within one hundred-fifty feet and are legal objectors.

Mr. Fagan:

At this time I would like the Commission to produce the number of protestors that they had on a petition. It numbers some six hundred and twenty-one names. It is in the possession of the Commission and I wish they would present it at this particular time.

Mr. Bryan:

Mr. Fagan, the Commission does not have the letters objecting to the petition. I understand the petition of objection was filed with Council. We did not receive it as an objection to the zoning.

Mr. Fagan:

It was filed in Council and Council turned it over to the Planning Commission.

Mr. DiNardo:

No, the people would not leave it with us, Mr. Fagan.

Mr. Fagan:

They took it to the Planning Commission. Do you have this petition?

Mr. Bryan:

I do not have a petition, Mr. Fagan. We received no names directly. The only names we have are the ones the City Clerk gave us. I am aware of the petition you speak of, but we did not receive it.

Mr. Fagan:

You are aware of it. Where is it?

Mr. Bryan:

I don't know.

Mr. Fagan:

Mr. Chairman, I think before we take any action on this, we should be in a position to know how many objectors there are to this particular piece of legislation.

The Chair:

Was there a petition? Was there any presented at the hearing, Mr. DiNardo?

Mr. DiNardo:

According to the stenotypist I just spoke to, the petition was mentioned and the people who had the petition would not leave it in our care. They kept it. That is all we know about it.

The Chair:

In other words, we have no record of a petition?

Mr. DiNardo:

No, sir. Only that they have one.

Mr. Bryan:

If I could clarify for zoning purposes, the ordinance limits our position to only those names which are given in writing and filed with us and I must say, al-

though it does appear confusing, I must limit myself to only those names I have in writing. That is what the ordinance requires.

Mr. Fagan:

That petition has been presented and I would like, at this time, to read back a report on the public hearing to verify the fact that there was a petition submitted by the residents in this area.

The Chair:

Do you have that report?

Mr. Baskin:

I want to rise here in defense of the Planning Commission, who are our employees, who are the City's employees. Because a Councilman objects to their recommendation there is no reason to impugn their integrity. I did not interrupt you.

Mr. Fagan:

I'm not interrupting you. I'm just standing up. I don't have to ask you to do that. I can do what I want to.

Mr. Baskin:

Mr. President, I want to say this. I have been on the Council for almost eight years now. This is the first time that I have experienced the very unexpectedly embarrassing situation of a member of City Council accusing an employee of the City Planning Department who has proven his integrity and competence over the years, including those on which I have differed with him. Yet I have never found it necessary to question the integrity of the people on the Commission or on the staff of the Department of City Planning, simply because I did not agree with them. The only purpose I have here is to state that I am quite sure that if Mr. Bryan had any petition before him he would have presented it and would have considered it. As far as I am concerned, I think that an apology is owed to Mr. Bryan and those who assisted him in this matter.

Mr. Fagan:

Mr. Chairman, I want to say that I won't even dignify the remarks of the previous speaker because they don't lend themselves to, or pertain to, the question. The fact that I have lost fights in this particular Council has never changed me one bit. All I want are the facts. I knew that petition was here; so did the Commission know that it was here; everybody that was at the public hearing knew it was here; and then they say they are not knowledgeable of it. I owe an apology to no one and I have no intention of making one. When taxpayers make protests I want things kept on record, and when I ask for them I want them produced.

Mr. Fagan:

I have just been handed the petition and there is no question that it is the one referred to, although our first report stated, in effect, that it wasn't here.

The Chair:

But it's here and did you, Mr. Bryan, know anything about this? I don't know whether you did or not. Nevertheless, it should be a part of the record.

Mr. Bryan:

First—again, I realize how sensitive the issue is. I asked the City Clerk's Office for any names or letters that were on file objecting to the zoning. I was given a list which we thought was all there was. I was not given this. Let me read this to you first. "To the Members of City Council: We, the undersigned property owners and taxpayers in the vicinity of the Greenway Drive Project, located between Steuben Street and Chartiers Avenue in the 20th and 28th Wards, do hereby protest the planned project which is proposed for that area. The reasons we protest are:" Then they are listed and then there are the signatures. I think first I would have to look this over with the City Solicitor because, as I read it, it is not an objection to the zoning. But we are limited as administrators to administering the ordinance which Council has enact-

ed. That ordinance specifies we must receive written objections to the zoning proposal and we must evaluate those in a certain exacting way. I don't read this as an objection to the zoning, although it does object to the renewal project. I don't know then whether this would have an objection as to the zoning or what. I would have to ask the City Solicitor for a ruling on that. Then we will copy these names and tally as we find it.

The Chair:

The Solicitor is here and you may ask her.

Mrs. Finkelhor:

As Mr. Bryan has indicated, this is an extremely narrow question. As a question of law, we do have a procedure whereby the property owners can protest a zoning change and if twenty per cent of them protest then we inquire for a special vote of Council. The question of interpretation, as you have asked, is whether this document, which lists some six hundred names, is actually a protest against the project or a protest against the zoning. This raises a number of extremely difficult questions. Did the property owners know about the zoning change? What was their intent in filing such a petition? Were they only protesting the building of the project or were they protesting the change itself? On the face of this petition, and we can only say what we see on the face, it would seem to be a protest against the building of the project and not a specific objection to the change in the zoning. This is a very narrow decision and I think that the intent of the parties, on its face at least, does not indicate a specific protest against the zoning, but a general protest against the project. I think that conceivably this petition should be further examined before a final decision is made. One other thing, we do not know and we have not had a chance to plot these six hundred names on the map to determine how many of these six hundred protestors would be within the accepted area. I think that the relevancy of these petitions could be in part determined on that basis. If we knew the relationship between the addresses

shown on the petition and the proposed project we would have some light on the validity of the petition.

The Chair:

In other words, both of them are tied together, anyway. No matter what, you must change the zoning before you can put the project in and at the public hearing, if I remember it correctly, they protested to just about everything. I don't remember about the petition. I'm very sorry, but I think the protest covers both zoning and the building of the project.

Mrs. Finkelhor:

As a strict interpretation, on the face of this petition, it does not mention the zoning and, therefore, there would have to be some real interpretation made of this.

The Chair:

Just how do we go about that?

Mr. Kuhn:

Mr. President, as I understand the issue before the Chair, and it is an issue before the Chair and not before the body at this point, it seems to me that the question really is what ruling the Chair would give on the passage or failure of passage of Bill 3353, and that will depend upon a determination which the Solicitor has made and whether final or only tentatively she could best answer. But my suggestion would be that we can vote as a body on these bills and that the ruling of the Chair can await the advice of the Solicitor as to whether the petition is sufficient under the law to require more than a majority of Council to adopt Bill 3353. It would be my suggestion that we proceed to take a vote on this bill and the other two bills on which action has been deferred and let the Chair's ruling on Bill 3353 abide by the advice of the Solicitor after the tabulation of the petition and, of course, I would assume that any member of Council who is interested in participating in the examination and tabulation of the petition should be permitted and encouraged to do so.

Mr. Fagan:

Mr. Chairman, my original remarks embodied the fact that because of the petition that we take no vote on this particular matter until such a time that it is completely cleared up as far as the parliamentary inquiry is concerned. It is a decision of the Chair, obviously, as to whether or not you are going to void and set aside the signed petition that we have here, which has given us quite a bit of trouble—or whether or not you are going to take a vote on the matter without a clear executive decision which I will abide by irrespective of what it is. But I think a decision by you should not be made without knowing exactly how many votes are necessary to pass this legislation.

Mr. Kamyk:

Mr. President, in view of the fact that there is a dark cloud cast over this legislation, I do agree that it ought to be held over until everything is cleared up. I think our President and Chairman should be sure of his decision and I think he should be advised before we act on these bills.

Mr. Kuhn:

Mr. Chairman, I would once again say that I believe that the votes of members of Council on this matter and the reasons behind them were rather thoroughly examined and expressed in our Committee deliberations yesterday. I fail to see how the ruling that the Chair would make with respect to Bill 3353 could affect the vote any Council member. With respect, however, to Mr. Kamyk's view of the matter, I do not mean to impugn his good faith in directing his votes on the subject. Nevertheless, it seems to me that the merits of the Greenway Project are now being discarded in the light of a number of technical and parliamentary questions which I do not believe should impede the vote. What we are doing if we defer further action is to permit a much-needed housing project to be deferred—or defeated—on what I believe are technical grounds and against the majority vote of the members of Council as they were expressed in our Committee deliberations yesterday. I believe we are giving in to a technical and non-meritorious dis-

pute and we are losing sight of the overwhelming merits and the great need for housing in the City of Pittsburgh.

Mr. Fagan:

Mr. President, I do not care to prolong this because it is your decision—but whenever I hear the previous speaker talk about the fact that technicalities should be set aside it only indicates what happened here some time ago when he found out he was wrong and I was right in a parliamentary ruling. The only thing I am trying to pursue here is the position of the people who have submitted these petitions—it becomes a legal legislation. When it does I will abide by it. This is not a technicality. This is the law that I am asking to be upheld, which is brought about for the protection of the people. As far as we are concerned, the issue should be cleared up before we take a vote on this measure. Decisions have to be made yet.

Mrs. D'Ascenzo:

In view of the controversy that faces us and the merits of it on both sides, I would like to move that this meeting of Council be recessed until some time later this afternoon so that the Law Department and the Planning Commission can scrutinize the petition and come up with the information Councilman Fagan requested.

The Chair:

I would accept that motion if that would be sufficient time for them to check and the Chair review it. Is there anybody here that can answer that? There are six hundred names on the petition. I don't know whether the Planning Commission will have sufficient time this afternoon. Mr. Bryan, can you answer me, please?

Mr. Bryan:

By this afternoon we can draw the list on the map. Now there are qualification on this and I must assume that many of the names on the list represent owners in the area. I can't by this afternoon check through the County

Tax records as to whether they are owners in the area. We can plot them on the map and take a tally of this. To have a legal judgment, they should be property owners. If we have time, I'll try to check those names that occur as legal objectors. That is not the whole analysis, but it is a pretty good piece of it and a fair indication of which way the wind is blowing.

The Chair:

The Law Department would like to give their report on it so I don't know if they will have time.

Mr. Kuhn:

I was waiting to have the opportunity to second the motion or, if necessary, to suggest its amendment in order to permit the Chair, under its powers, to call us back after a recess at such time as a report is available from the Planning Department and the Law Department—and if it wouldn't be this afternoon then either tomorrow morning or tomorrow afternoon, but at any rate some adequate time in order to permit the Planning and Law Departments to advise the Chair.

The Chair:

Any objection to that suggestion?

Mrs. D'Ascenzo:

I have plane reservations for this afternoon at five o'clock, but I am willing to cancel them at such time that we will complete the work on this particular piece of legislation; and I hope that by tomorrow morning it will be taken care of. I would be willing to make my arrangements so that I could be present.

The Chair:

I don't see any objections to Mr. Kuhn's suggestion. Just as soon as they are finished and would agree to go along with it and expedite this as quickly as possible; and I think that suggestion is very good and if there is no objection that is what it will be.

Mr. Kamyk:

Mr. President, I do have plans and I don't know whether I will be able to be present.

The Chair:

I doubt whether you will be called in, but it is just my opinion and if they will do it as soon as possible it will be done.

Mr. Kamyk:

Mr. President, this afternoon I don't mind. I said tomorrow and next week.

The Chair:

I know you are going away, Mr. Kamyk. I'm very sorry. We'll try to get it finished this week.

Mrs. D'Ascenzo:

Mr. Chairman, I think some time late this afternoon might be agreeable to all of us.

The Chair:

We will do it as soon as possible.

Mrs. D'Ascenzo:

I will have to know whether it is this afternoon or tomorrow.

The Chair:

I assure you that nothing will be done this afternoon. In other words, we need seven votes for this and we may not have them tomorrow and that is going to have something to do with getting our people here. We will have to wait until such a time that we get a report from the Law Department and City Planning, and the reason for this decision is that this petition should have been a part of the record when this bill was passed. There is no question about it. It wasn't—it is a mistake on the part of our Department. Just who did it or did not do it we are not going to take to task here, but I hope we can straighten that out and really find out what happened here. Insofar as we are concerned, they were making up the record and the stenographer working on

this report kept it with his particular papers, and I believe that sums it up. As I understand it, as soon as we get the information from those two departments you are authorizing the Chair to set up a meeting. Is that right? Is that alright with you, Mr. Fagan? Is that alright with everybody concerned? We have to have seven votes.

Mr. Mason:

Mr. President, if Mr. Kamyk is not going to be here tomorrow and Mr. Baskin is abstaining from voting, you can't get seven votes.

The Chair:

We'll have to work it out some way.

Mr. Flaherty:

Mr. Chairman, so that we all may make some type of plans—and it appears several of the Councilmen have made summer plans—I think it is important enough that most of us want to vote on it. What harm would there be if we set a time that would be tentative—say, three or four o'clock this afternoon, or whatever Council would prefer, and if we have the vote tallied at that time we will all be in a position to vote and it may release Mr. Kamyk and Mrs. D'Ascenzo, who have summer plans. I suggest that we do set a time, perhaps later this afternoon, and see if we can't arrive at the tally at that time.

The Chair:

I don't mind doing it that way and in my opinion I don't think they will have the time to get the information. If there is no objection I will call a meeting this afternoon. What time do you want it? Four o'clock? I will now entertain a motion to that effect.

Mrs. D'Ascenzo moved

That this meeting of Council be recessed until 4:00 o'clock, P.M. (D.S.T.), this afternoon.

Which motion prevailed.

And Council recessed.

— — — — —

Pittsburgh, Pa.

Thursday, August 7, 1969

And the hour of 4:00 o'clock, P.M. (D.S.T.), having arrived and the time of Recess having expired, Council reconvened and there were present:

Mrs. D'Ascenzo	Mr. Kuhn
Mr. Fagan	Mr. Mason
Mr. Flaherty	Mr. Counahan
Mr. Kamyk	(Pres't)

Absent:—Mr. Baskin.

Mr. Counahan:

Is there a report from the Planning Commission?

Mr. Bryan:

Yes, Mr. President, I do have a report. The petition which we inspected had 638 names on it. I should comment that there were in some cases, as many as six names from one address and in many cases, two and three names from the same address. Out of these names, 23 are legal objectors, either within the project area or within 150 feet of the project area.

The other letter, which has 27 names, of that, one was a legal objector; that is, within 150 feet or within the project area. So, of the total of 665 names, 24 are legal objectors.

The Ordinance dealing with Council's qualified vote deals in the area involved and not simply numbers. I have taken the individual objectors and plotted them on the map which is on display. The map has, in the solid red line, the area to be rezoned. Outside of that, 150 feet away, is the dotted red line, indicating the limit of "legal objections." There were many names beyond that line. I recall a great many streets such as Justine, Merryfield, Rydal, many names on Steuben Street toward the West End; but none of these would count towards qualifying the vote of Council.

The precise is as follows:

Under Area "A," in the Ordinance, which deals with the area within the property to be rezoned, we have 1,772,-

000 square feet of block area. There are 4 objectors within the area to be rezoned. Those objectors own property totalling 45,600 square feet. We calculate that to be $2\frac{1}{2}$ per cent of the area concerned so Council is not qualified on that point.

On Item "B," under the Ordinance, which concerns itself with area of properties abutting the rezoned land, in Area "B" there is 194,000 square feet of property. There are 3 objectors within that territory and I should say that 2 of them qualify either as abutting owners or fronting owners—and in our calculation, we counted them twice in each category, giving the objectors the benefit of the doubt—those three represent $12\frac{1}{2}$ per cent of the property within the abutting area. So Council's vote is not qualified under that point.

Area "C" of the Ordinance, property fronting, there is 497,000 square feet. It was in this area that most of the objectors were located. There were 16 in this category; 2 of them we have counted as abutting and counted again in this category, representing 68,000 square feet of this property or $13\frac{1}{2}$ per cent. So, Council's vote is not qualified on point "C."

Item "D" deals with area of other properties within the 150 feet of rezoning property other than those already calculated, and in this category there were 9 objectors, 5 of whom we have counted in two of the previous items, again, to give benefit-of-doubt. We counted them here to avoid any dispute and these represent 24,000 square feet of property or $5\frac{1}{2}$ per cent of the area in this category.

Therefore, in all 4 items, where Council's vote might have qualified, less than 20 per cent of the property owners in the area are objecting and our conclusion is that Council's vote is not qualified.

Mr. Fagan:

Mr. President, as you observe the map here, it is self evident the property owned by the taxing bodies in square foot frontage, unfortunately puts the property owners—individual property owners—into a position where 100

per cent of their objections would not meet the requirement of 20 per cent. I would like to ask a question of the Planning Commission. What percentage of property owners objected—if we exclude the areas owned by the taxing bodies?

Mr. Bryan:

I do not have that figure for you at the present time because we calculate all lots in the area, making no distinction between public and private since the ordinance does not make that distinction.

Mr. Fagan:

It is very obvious, at least to me, that the questions we ask answers for we cannot get. We had a petition which disappeared for a while and then showed up again. I don't feel we should vote on this issue until we are fully knowledgeable and the Commission can answer all questions involving the property owners in this area that are going to be affected by this project.

Mr. Counahan:

Anyone else care to be heard?

Mr. Kuhn:

Mr. Chairman, I would like to have the opinion of the Solicitor as to whether Mr. Bryan's figures are correct under the Ordinance.

Mr. Counahan:

If you don't mind, Mr. Kuhn, I would like to have the City Clerk read a couple of letters into the record. These letters were just received—one from a Mr. Ellis and one from a Mr. Harper—and then we can get on with the meeting.

Mr. DiNardo:

"August 7, 1969, to Members of Council

Dear Fellow Democrats:

"You have no doubt received many

letters concerning the Greenway Drive Project in the 28th Ward.

"Regardless of any efforts to eliminate politics in this matter, it is my duty as chairman of the Ward to inform you that I have been placed in a serious position by the people who are fighting for their rights and privileges to which they are entitled.

"As Chairman, it is my duty to bring our cause to the people in this community. Well, I find this an extremely difficult job, and it is becoming worse as these events and encroachments continue.

"I believe in politics, and feel that it should be a part of any community effort, but I can tell you that this (Greenway Drive) and many other zone changes and area shaking developments were never brought to the attention of the very people who would be of the most help in situations such as this. A Ward Chairman seems to be the fall guy for the appointed brain trusters, who can sit back and laugh after the damage is done.

"I sincerely believe that these subjects and projects could be discussed with Chairmen, and I'm sure you will find that many of us are really dedicated to the betterment of our respective communities.

"Please register my letter as one more protest for the people of Greenway area."

This letter is signed by Art Harper, Chairman, 28th Ward Democratic Committee, 1766 Chessland Street, Pittsburgh 15205.

The second letter is as follows:

"August 7, 1969, Mr. John F. Counahan, President:

"Dear Sir:

"In view of the controversy raised this morning concerning the opposition to the changing of the zoning for the implementation of the Greenway Project, I am enclosing herewith a photostatic copy of the only notice given to property owners within 150 feet of the boundary line of the pro-

posed zoning change. As you can readily see, such a notice tacked on a utility pole, cannot be read without taking the notice from the pole.

"My clients, the property owners who opposed this project, had little or no notice of the necessity of filing a written letter with the City Planning Commission.

"As I pointed out at the public hearing, most zoning changes require an individual notice to each of the affected property owners, however in projects of this size, the Redevelopment Authority and Planning Commission are excused from giving individual notices. This is obviously to the extreme detriment and disadvantage of the property owners.

"Nevertheless, I am absolutely sure that the names included in my petition represent far more than 20% of the property owners within 150 feet of the boundary lines of this property. I would like to point out that a large area which constitutes almost 20% of the boundary line of this project is owned by the Catholic Diocese of Pittsburgh as Trustees for St. Martin's Church, and that another 30% of the border of this property is owned by the three taxing bodies of the City of Pittsburgh. Thus the area bordering individual property owners is less than 50% of these individual property owners.

"It is almost unbelievable in view of the unanimous opposition to this project presented by property owners at all public hearings, including the one before your honorable body, that the City Planning Commission would infer to your body that less than 5% of the property owners opposed the zoning change. I think it incumbent upon the City Council to recognize that the opposition to this zoning change and to this development far exceeds the required 20% to necessitate more than a simple majority of City Council votes to pass this legislation which so radically changes the character of the neighborhood against the unanimous will of the property owners directly and economically affected."

This letter is signed by Edwin F. Ellis, Attorney at Law, Rockwell Standard Building, Pittsburgh 15222.

Mr. Counahan:

There was a question there of proper notification.

Mr. Bryan:

We are required by law to post 10 handbills; we posted 27. I can indicate where they were placed; they're noted on the map. I can indicate when they were put up and show you the notices.

We are aware of the fact this was a controversial development and when we posted the area, we made certain we posted far in excess of the required number of notices.

Mr. Counahan:

How about the question of size? In other words, it was stated you would have to take them down from the pole in order to read them.

Mr. Bryan:

Of course, these notices were posted by human beings, none of whom are 8 or 10 feet tall, so I would assume they were posted at a normal height at which any normal person could have read it. Small children might have had to reach up but any normal adult, I think, could have read them without any undue hardship.

Mr. Counahan:

Mrs. Finkelhor, Mr. Kuhn asked a question as to the figures quoted by Mr. Bryan?

Mrs. Finkelhor:

We prepared a written opinion on the question of the petition. Would it be the will of Council that we give our whole opinion at this point? This question was asked at the morning session.

Mr. Kuhn:

Mr. President, I would like to hear the entire opinion if it is not too long.

Mrs. Finkelhor:

Briefly, the question asked the Law Department by the honorable members of Council was whether or not the petition of six hundred and some odd names that was placed in the record was a valid petition against the zoning change within the requirements of the Pittsburgh Zoning Ordinance and the Pittsburgh Zoning Act. Let me say, Section 6 of the Zoning Legislation of March 31, 1927, sets up the basic procedure for changes in our zoning regulations and requires that if a protest against such change is signed by the owners of 20 per cent or more, either of area included in the proposed change or of those immediately adjacent in the rear or adjoining on the side thereof, extending 100 feet therefrom, or those directly opposite thereto extending 100 feet from the street frontage of such opposite lots, or when disapproved by the City Planning Commission, such amendment shall not become effective except by three-fourths vote of all members of Council.

A similar provision is placed in the Pittsburgh Zoning Ordinance — that three-fourths of Council is translated as requiring the affirmative vote of seven members of Council.

In addition to requirements included in enabling legislation, there is a fourth requirement which enlarges the area of protest to include an area within 100 feet around the area proposed to be changed, so that under our ordinance we do consider protesters from a larger area than is actually included within the enabling legislation.

The legal question is whether the petition which we have referred to meets the requirements of a written protest against the zoning change by property owners owning 20 per cent or more of the area of lots in the designated category. We examined the petition very closely, particularly the section within the petition written that the petitioners

objected to the Greenway plan because, "it does not conform with existing residential zoning." So that even though the petition itself does not specifically protest a zoning change, in view of the fact public policy favors a liberal participation, it is our opinion the petition, which became part of the record this morning, can be considered a valid protest against the zoning change provided the requisite area is included.

We have been informed by the Planning Department that after plotting the property owners included on the petition, the requirement of 20 per cent of the property as set forth in the four categories of the Zoning Ordinance—and again I would like to call to your attention that our Zoning Ordinance includes a larger area of protest than enabling legislation—the requirement of 20 per cent is not met in any category and, therefore, it is our opinion that the petition in question does not comply with the requirements of Section 3101-2 of the Zoning Ordinance and the vote of 7 members is not required.

Now, on the auxiliary question, which we did not include in our opinion and which has been raised by Mr. Fagan regarding the fact that lots owned by public bodies are included in the category, let me say that it has been the practice of the Planning Department and the Planning Commission, ever since our Planning Ordinance has been in effect, to include publicly owned property within the area. We have carefully checked the case law to determine if there is any case that would cast some light on this particular issue and to our knowledge, there is no specific interpretation by a court of this provision other than the fact it would appear to be contrary to public policy not to consider the publicly owned land; otherwise, we could reach a situation where if, in a given area there was only one private property owner and all the rest of the property were publicly-held, one property owner acting alone could thwart necessary improvements or changes within that area.

Therefore, based on total intent of our Zoning Ordinance and the fact that nowhere is any distinction made between land privately owned and land

publicly owned, it is the opinion of the Law Department that the area of lots to be considered is all lots whether they are in public or private ownership.

Mr. Kuhn:

Mr. Flaherty has raised a question on which I would like to have Mrs. Finkelhor present an opinion. He said he was asked by a person whether my vote on this bill should be permitted in view of the fact I am a member of the Board of Urban Redevelopment Authority of the City of Pittsburgh. This question, I believe, has been considered by the City Solicitor's office in the past and I know it has been considered by the Solicitor for the Redevelopment Authority and I have personally been advised on this matter. However, I believe, since Mr. Flaherty raised this question, it should be a matter of record today. I would like to have Mrs. Finkelhor express the opinion of the Solicitor's office on this matter.

Mr. Flaherty:

Mr. President, I asked Mr. Kuhn if he would mind if I would ask the question as to a Councilman's vote when he serves on not just the board of the Redevelopment Authority, but others also.

It seems to me a legal question, perhaps asked in the past. I thought it would be a good time, since the Solicitor is here and we have a procedural question before her, to ask the question now. Several Councilmen serve on authorities and when business from that authority is before Council they find themselves perhaps as legislators on the one hand representing the people of the City, and on the other hand, as members of a Board or Authority. It seems to me an issue we ought to resolve, whether or not when you serve on an Authority such as Urban Redevelopment Authority or the Parking Authority or any other authority, then when the question comes up, we will know the answers. I hope you won't take this as a general question, Mr. Mason. Many of us may be on a board at different times and we ought to have an opinion from the Solicitor whether we could be permitted to vote in that instance.

Mr. Mason:

Mr. President, this raises a whole bag of worms that the members of City Council are faced with. Mr. Flaherty has made reference to membership on the Parking Authority. You and I serve on the CAP (Community Action Pittsburgh) program as mandated by law. I don't know how the City Solicitor can become definitive in her answer on this particular subject except where we have been asked to serve on a voluntary basis. I am not too concerned about the fact Mr. Kuhn happens to serve with Urban Redevelopment Authority. Everyone knows he is a man of integrity and a man who, by his own admission, voted contrary to certain things that have come before this body, including the Stadium.

I am just wondering whether the City Solicitor can give an omnibus opinion as to the activities of City Councilmen in Civic Affairs. Am I supposed to come off of St. Francis or Mt. Mercy's Boards? This raises questions because other institutions where I serve as board member do come before Council. The question was raised to Mr. Kuhn about the matter of conflict of interest and I am just wondering whether the City Solicitor can, at this given point, give a ruling on the limit of activity of Councilmen in civic affairs.

Mr. Kuhn:

I personally feel no disability to vote on this matter and I have frequently, in the past, voted on matters that involved not only the Redevelopment Authority proposals before Council, but also matters involving Carnegie Institute and Carnegie Library, and other institutions on the boards of which many of the rest of us sit, and other agencies, without any serious conflict of interest. I have in the past, and always will disqualify myself from any situation where legal representation of a client would be at variance with my duties as a member of Council to give a disinterested vote. I feel no such conflict of interest in this matter. I am raising the matter, however, because Mr. Flaherty had the question put to him and it relates only to my vote on this issue before us today and does not, Mr. Mason, relate to my membership or resignation

from the board of any civic or other organization. I would not feel myself compelled to resign, even if an adverse opinion were given by the Solicitor. If they informed me that I could not vote, I would disqualify myself.

Mrs. Finkelhor:

Let me say that I cannot of course, give the omnibus opinion. We have on a number of occasions, in the Law Department, checked on the status of the members of Council serving as Authority Board members. It is our opinion that it is very clear, under the Pittsburgh Charter Act, Section 3—and Council can look at it—53PS22223—where conflict of interest is defined, and specifically excepted is the service of Councilmen or commissions of public works or improvements where such employment is without pecuniary consideration. We have in the past interpreted this to apply to service on municipal authorities. In addition, I would like to call to Council's consideration that the conflict of interest provision applies to a member who has a personal or private interest and it has been our opinion in the past that a public service position is not such that would give to a given Councilman a personal or private interest.

Therefore, it is our opinion that Mr. Kuhn would not be disqualified to vote

Mr. Fagan:

Mr. President, I would like to know if I could reasonably expect an answer from the Planning Commission? I would like to know if I could get an answer to my question?

Mr. Bryan:

That question would be as to public property. I can get such an answer; I do not have it at my fingertips. It took eight people some four hours to get this answer to the question as to the petition. I imagine we could get the answer to this other question in a similar length of time. Would you like to hold the meeting over or wait until a later date?

Let me comment, the housing development in existence in the West End of

the City was built entirely on City-owned, tax-delinquent property. There was no question of private property raised. There were, however, a lot of objections raised in the neighborhood. I wonder if you would take it the public does not have a right to protect its interest in the tax-delinquent property, if we could have gone ahead with the Sheraden development. The fact that public interest would have been invalidated if we had not given the public equal standing. We have always followed this practice, as outlined by the City Solicitor, and I am not making distinction between private and public ownership. I can get the figures you ask if you would give us time.

Mr. Fagan:

What really disturbs me is that here today we're putting our City employees to an arduous four-hours work, when what this involves is a lifetime investment of property owners. I cannot determine why a decision has to be made so quickly and so hastily when answers are lacking to important questions as to the future of this particular legislation we're considering here today. It makes me, from the very time I came into this legislative session, feel there must be something in back of this that isn't on the surface or that I haven't been informed about and if it takes four hours, four days, or four weeks, these people involved with their very livelihood are entitled to the answers I ask here.

Let me say that, by the Solicitor's own admission, at no time has determination of the question of taxing bodies property vs. private ownership been made. It has been past practice, as pointed out, but never adjudicated as to the rights of property owners vs. tax-delinquent property, where people have no right to vote and never could, at any time, protect the property rights they have because of the fact they are surrounding 150-foot areas owned by the City, County, State, or any other taxing body.

I say, these are answers we should have. We should attempt to find out exactly how many property owners in this particular area have objected to this and this is my question.

What percentage of private property owners are involved and are trying to protect their property rights, whether 15 per cent, 18 per cent, or 32 per cent? I think we're entitled to know the percentage and I have no intention of voting on this legislation until I find out.

Mr. Kuhn:

With all respect to Mr. Fagan's desire for information, I believe the Solicitor has advised us as to the interpretation of the legislation and the fact the question has not previously been litigated or decided in a court does not in any way disqualify us or prevent us from taking action at this time. If, indeed, there is a legal issue that can be resolved in the courts. It should not and cannot be resolved before we take action on this bill before us today; if indeed, there is such an issue which the property owners desire to litigate they can do so, and it will be decided in the courts where the question properly would be presented. If I understand the Solicitor correctly and the figures given us by the Planning Department, the requisite 20 per cent of property owners in area and interest have not recorded a written protest including, taking into account all 638 signatures on the petition that was examined and reviewed today. As a consequence, I believe this matter is proper for our consideration now and on that basis, I call for the question on the bill.

Mr. Counahan:

A question being called for, and if there are no objections—

Mr. Fagan:

Mr. President, I am well aware of some of the facts my honorable colleague pointed out but what he says is not germane to the position I am taking and that is, I am attempting to find out an answer to my question. I realize the time involved in litigation and I made the point only because the Solicitor brought it out. My question is—and I want an answer from the Chair on this—I don't feel we should vote on this issue until such time all questions

asked by Council here are cleared up and I ask for your decision on that question.

Mr. Counahan:

The decision of the Chair is that we will proceed with the final reading and final action on the bills before us, and the Clerk will proceed with the final reading.

Mr. Kuhn moved

The adoption of the resolution.

And the roll being called, the ayes and noes were taken, agreeably to law, and were:

Ayes:—

Mr. Baskin

Mrs. D'Ascenzo

Mr. Kamyk
Mr. Kuhn

Mr. Mason
Mr. Counahan
(Pres't)

Ayes 6 Noes 2

(Mr. Fagan and Mr. Flaherty voting "no").

Which motion prevailed.

Mr. Counahan:

This is the first meeting of Council since the resignation of Charles J. Leslie as a member of Council. I think now we should consider filling that vacancy through nomination and election of a citizen as replacement.

Mr. Mason:

I move to open the nominations for the election of a citizen to take the place of Charles J. Leslie, who submitted his resignation to Council.

Mr. Fagan:

Mr. Chairman, I second that motion.

Mr. Flaherty:

Before we take up that nomination, I think it appropriate to state how I feel on the matter. There are less than 60 days until the elections will take place, on November 4, at which time the voters of the City will make a decision as to filling the vacancy left by Mr. Leslie's resignation. It seems to me, whichever candidate would be nominated would hardly be oriented to the business of City Council in this short period of time. Perhaps more importantly, I think it would provide whoever is nominated with a political advantage in an election year over any other candidate. I recognize this technique is often used by both parties but I believe the people in the City of Pittsburgh of both parties should make this decision since there is only a short time left. I would be happy to nominate whichever candidate receives the highest number of votes to fill this vacancy but for the reasons as stated, I would not vote for this nomination and election at this time.

Mr. Kuhn:

Mr. President, I think I agree with Mr. Flaherty in the overall but not in some of the specifics. He says he believes the filling of this vacancy may provide the person who takes it with an advantage in the election. My feeling is that that may not work out that way either. It may, however, have an unfortunate effect on the election which would be to influence it in ways that are, in view of the fact there are only eight weeks between now and election day, not important to us in the conduct of our business as a Council. So, while I personally feel very favorably disposed to the persons nominated by the Democratic Party at the Primary election last spring and feel anyone of those so nominated would make an acceptable member of Council, I feel at this time we should not fill the vacancy. We have only eight meetings at the most between now and election day and I think after that election day would be plenty of time to fill that vacancy.

Mr. Fagan:

Now Mr. Chairman, I disagree with both of the previous speakers. I think the future of the City of Pittsburgh transcends any political situation that might be either in favor or may be harmful to anyone selected. I feel we live in troubled times and I think we need the advantage of having a full City Council and I think we should proceed with that order of business.

Mr. Baskin:

Mr. President, I want to echo what Mr. Fagan has said. I know we have been advised that politically it might be better not to make a selection but we have been told that about a lot of issues which have come before us recently concerning various matters affecting the welfare of the citizens of this City. I agree with Mr. Fagan that, at these times, with the amount of work imposed on City Council and the amount of Committee work each member of Council has to do, we should have our full complement as soon as we can. The fact is, we are doing under the law what we are supposed to do; that is, fill the vacancy as required by statute and I

think we are fulfilling our obligation to the people of this City by doing just that.

I am also pleased, as reported to us by our President, and he can make a more full report on it if he so chooses, that the three candidates selected in the Democratic Party were met with and this situation discussed with them. I would be pleased to vote for each of them. Two of the candidates informed the President of Council that because of their commitments, they were unable to devote the amount of time necessary for this job prior to January 1, 1970. We were fortunate that the third candidate was in a position to take the job immediately, even though he is also running for election and also has his own business.

I think, Mr. President, as Mr. Fagan said, these are troubled times and we need all the help we can get. I think the people of the City of Pittsburgh have a right to expect a full Council to cope with the problems of the City.

Mr. Mason:

Mr. Chairman, I agree with Mr. Fagan and Mr. Baskin and want to clearly indicate to you that I have assumed the responsibilities as assigned by you and I now have two departments. Each of these departments is large—Department of Water and Department of Public works. I spent half this morning with the Department of Public Works; this afternoon, I will be with the Director of the Department of Water.

I am saying we need our full complement. Mr. Baskin alluded to the fact you had advised him that three of the candidates got together and for various reasons, two declined to accept. I want to let you know, I was prepared to place in nomination the name of George Shields. I discussed this matter with Mr. Shields and Mr. Shields informed me that his current business, his law practice, is of such a nature he could not clean up his calendar in time to begin to devote full time to the duties of City Council until January 1, 1970.

Mr. Counahan:

Mrs. D'Ascenzo and Mr. Baskin

will please escort the Mayor into Council Chambers.

Mr. Baskin:

Mr. President, I am pleased to place in nomination the name of one who was selected by the Democratic voters in the recent Primary as a candidate to begin his term January 1, 1970. His name is Edgar W. Michaels. Mr. Michaels lives at 7032 Meade Street in the Point Breeze section of this City. I am particularly pleased to place his name in nomination because I have known the candidate longer than any other member of Council. Our friendship goes back 20 years. I have found him to be a man of intelligence and integrity, interested in political affairs and interested in the affairs of the City. Mr. Michaels is President of the Hinkel-Hoffman Supply Company which is located on the North Side and with which he has been associated for approximately 20 years. The firm is well known on the North Side.

Mr. Michaels was born and raised on the North Side, attending Troy Hill Elementary School, Latimer Jr. High School and Allegheny High School. He is a graduate of the University of Michigan. He is immediate Past President of the Neighborhood Centers Association, a member of the Executive Board of the North Side Civic Development Council, and Sr. Vice President of Rodef Shalom Brotherhood. Mr. Michaels is 46 years of age. He and his wife, Norma, have three children: a daughter, Laura, age 17 and twins, Gary and James, age 14.

I think we are particularly fortunate to have a man of his calibre willing to assume what I consider, today, to be the onerous duties of City Council which I am shedding on December 31. I might say, and it is not as facetious as it may sound, that when Mr. Michaels said he was approached to be a City Councilman, I warned him of the amount of work involved in being a member of Council these days; about the changing times in the City today and the fact, as Mr. Fagan said before, that these are, indeed, times of trouble and likely to continue that way for some years. However, he said he had, for some years, been interested in the civic affairs of the North Side; had participated in

building programs in that section and other sections of the City and that he has a genuine desire to serve the people of Pittsburgh if they should elect him in this coming election.

So, again, I say I am pleased to put into nomination Edgar W. Michaels and I am sure he will serve well all of the people of the City of Pittsburgh.

Mr. Kamyk:

Mr. Chairman, I concur with the remarks made by Mr. Baskin and therefore I second his nomination.

Mrs. D'Ascenzo:

Mr. Chairman, I also wish to second the nomination of Edgar W. Michaels.

Mr. Kuhn:

Mr. President, lest my remarks earlier be taken as reflecting a feeling of impropriety in filling this vacancy with any of the candidates selected in the May Primary, I would like to say it would be my distinct pleasure to vote for Mr. Michaels if I felt this election were in order. I enjoy the warmest regard for him personally in all matters. I have been pleased to campaign with him and for him and hope he will be elected resoundingly in November.

Mr. Mason moved

That nominations be closed.

Mr. Fagan:

Mr. Chairman, I second the motion.

Which motion prevailed.

The Chair:

The Clerk will call the roll for the election of Mr. Michaels as a member of City Council.

And the roll being called, the ayes and noes were taken, agreeably to law, and were:

Mr. Baskin
Mrs. D'Ascenzo
Mr. Fagan
Mr. Kamyk

Mr. Mason
Mr. Counahan
(Pres't)
Joseph M. Barr
Mayor

Ayes 7, Noes 1 (Mr. Flaherty voting "No", Mr. Kuhn not voting).

Mr. Counahan:

Mr. Mason and Mr. Kuhn, kindly escort Mr. Michaels to the podium.

Mayor Joseph M. Barr administered the oath of office to Edgar W. Michaels.

Mayor Barr:

Let me say this in passing. I think it is most important, as I observe the work of Council, to recognize that there is the possibility of issues coming in here and ending up with a six-to-two vote. Consequently, someone in our City could be deprived of the seven votes that would have to be had, especially in matters from the Planning Commission. I, for one, think you should work with a full complement of Council in order to be fair to everyone.

Mr. Michaels:

At this time, I would like to say, I am very gratified by this honor shown me this afternoon and hope I am able to act in a manner to make this Council and my family and friends proud of me. I thank you very much.

Mr. Counahan:

Mr. Mason, would you mind escorting Mr. Michaels to his chair.

Mr. Michaels is accompanied by his wife and family who are here in the Chambers and when our meeting is over, we invite them to come up and we can all become acquainted.

Mr. Mason moved

That the Minutes of Council of Monday, August 4, 1969, be approved.

Which motion prevailed.

Mr. Mason moved

That Council recess until Wednesday, September 10, 1969, at 10:25 o'clock, A.M. (D.S.T.).

MOTIONS AND RESOLUTIONS

Mr. Baskin (for Mr. Flaherty) presented

Bill No. 3819. Constituting the hearing for Neighborhood Development Program Activities in the Manchester Central Area of the City of Pittsburgh as a hearing also for early land acquisition activities in Manchester, encompassing the said Manchester Central Area.

Whereas, the Urban Redevelopment Authority of Pittsburgh has advertised the public hearing in accordance with law for the Neighborhood Development Program Action Area known as Manchester Central to be held on September 11, 1969; and

Whereas, subsequent to the advertisements, but prior to the hearing, the Department of Housing and Urban Development of the Federal Government approved a Survey and Planning Application of the Urban Redevelopment Authority of Pittsburgh for a larger area encompassing the Manchester Central NDP Area filled in 1967; and

Whereas, the said approval of the Survey and Planning Application included a reservation of \$13 million for the completion of the Manchester Redevelopment Area; and

Whereas, if the NDP Application for Manchester Central is approved by HUD, it will commit the cost of one year's activities therein; and

Whereas, the property rights affected by the Early Land Acquisition activities would be the same as the property rights affected by the NDP activities; and

Whereas, the activities under the Neighborhood Development Program and under Early Land Acquisition are each funded by the Federal Government under the same title of the Federal Housing Act of 1949, as amended.

Now, Therefore, be it Resolved by the Council of the City of Pittsburgh:

That the hearing as advertised for Neighborhood Development activities in the Manchester Central Area of the City of Pittsburgh shall be held also for Early Land Acquisition activities encompassing the Manchester Central Area.

Which was read.

Mr. Baskin moved

The adoption of the resolution.

Which motion prevailed.

Mr. Baskin:

Normally during negotiations such as are now proceeding between the Black Coalition, the Trade Unions and the Contractors prudence requires those on the outside to remain silent.

However, these are not normal negotiations—this is not a normal problem—and these are not normal days. And perhaps it might be useful if I make some observations as an elected official who has been caught for some years in the social maelstrom which has been swirling about all of us.

In attacking this latest problem facing the City, we cannot, in good conscience, start with any assumption other than one which acknowledges that the cause of the Black Coalition is just and right. We cannot escape from the conclusion that there has been deliberate exclusion of blacks from most of the trade unions. This exclusion is morally wrong, socially undesirable and economically foolish.

We can wail all we want about the tactics of the blacks; we can quote "law or order" in tones of righteous indignation; we can scoff at the costumes, hairdos and grammar of the protestors; we can decry the intelligence and skills of those seeking to learn; but we cannot, despite all our rationalizations evade what our minds and our hearts know is the truth. The simple truth is that the exclusion of blacks from trade unions cannot longer be tolerated.

One may ask, why descend on those unions and contractors since blacks are discriminated against in many places. The answer is that in no other field of work, manual, technical or professional, has the exclusion been so deliberate, so arrogant, and so tolerated by those in position, in private enterprise and public life, to do something about this condition. It is for all practical purposes the application of "apartheid" to unionism in America.

The ability of the trade unions to maintain this position is founded, of course, on the monopolistic practices of most of the unions involved—practices which discriminate against whites as well as blacks—but while there is some hope for a white man, there is none for the black man. This black exclusion is simply another example of the evils of monopoly, as opposed to freedom of opportunity, whether it exists in government, industry or labor. It is the present black problem that highlights this characteristic of many of the trade unions for all the public to see. And it may well be one of the ironies of union history that the exclusion of blacks will lead to a reform which will benefit both whites and blacks and, in the long run, the trade unions themselves. For a fundamental objection to admission of blacks is the recognition

that such admission is a break in the Berlin wall which the trade unions have constructed over the years to restrict membership.

All institutions, however strong, and however old, if they are to continue, must modify their structure to meet changing times. I hope that the leaders of the trade unions involved have the foresight and courage to face up to what is an inexorable force and in inevitable result, no matter how unpleasant the change may be at present.

I am encouraged that progress will be made because I sense that it is the feeling of the people of Pittsburgh that the time has come for a change in policy in the trade unions, just as the people have recognized that we can no longer tolerate discrimination in education or in economic opportunities. In fact, I sense this feeling among some of the trades union people themselves. They know something must be done.

The first step in righting a wrong is to admit the wrong. I think the trade unions have done this in two significant ways. Some of them have begun the change before this recent controversy. The others are now talking about how to change. They would not be talking if they thought that their original policy was right today.

I think it is important for the blacks to understand the import of that admission. The success of negotiations depends not so much on what is being said directly in words, but what is being said even though words make it appear otherwise. I can appreciate the blacks' refusal to admit this to themselves. They have lived on undelivered promises for years in this matter. However, I think it is imperative that their leadership recognize that we have risen to another level—the public, dismayed as it may be, and the unions, reluctant as they may be, have now concluded that something must be done.

This, then, is the basis upon which reasonable compromises can be reached, compromises which, if implemented in good faith, will in a relatively short time bring a measure of peace and stability to this controversy to the benefit of the public and the participants. This

now becomes a test of the qualities of leadership among the whites and challenged the white man on job exclusion now must meet the challenge of leadership. It is much easier to lead a march than to negotiate a settlement. It is much easier to arouse a mob than it is to lead the individuals to accept what at best must fall short of the demands made, no matter how just they may appear to those making them. The unions involved must make meaningful changes, not hedged by conditions which negate the changes, and the black leadership must be ready to accept them.

I do not agree with those who say that a man should not be "forced to join a union". Unions have been responsible for giving dignity to the worker and for obtaining better wages and working conditions for him, to the benefit of all of us. To say that a man who is hired need not join a union is a policy designed not to protect the individual worker, but to destroy the union and also the protection the worker needs. Nor is it undesirable for a union to regulate its own affairs, or for unions and industry to set proper qualifications. But no union is justified in a policy of exclusion no matter what it gives as its reason. Men, whatever their color, have a right to work and to equal opportunity.

As I said before, if I read right the temper of the people, the people want an equitable end to this policy of exclusion which is causing so much difficulty. And if the parties fail to reach that end, the people, through government, will reach it.

I have faith in the people of Pittsburgh of all classes to do what is right when the facts are before them. We led the nation in air pollution control. We led the nation in physical urban redevelopment. In the sphere of human relations, long though the road is we have to go, we were a leader in setting up such machinery as the Human Relations Commission and in open housing legislation. When the Anti-Poverty Program began, we had the best record in such important programs as "Head-Start" and "Job Training". Our trade unions have made break-throughs in housing pro-

grams which have been followed in the nation and for which the unions have received little public recognition. We have been able to bring together all our different people and all our diverse forces during the past twenty-five years for the public good. We have a great opportunity to be first again to find a way which will benefit us today and honor us in the future.

Mr. Baskin moved

That Mr. Flaherty be excused for absence from this meeting.

Which motion prevailed.

And on motion of Mr. Mason

MOTIONS AND RESOLUTIONS

Mr. Kuhn presented

Bill No. 3989. WHEREAS, American armed forces have been engaged for over four years in combat in Vietnam, and have distinguished themselves for their valor despite vague and sometimes conflicting expressions of national purpose and objectives in that war; and

WHEREAS, Combat deaths for American forces now exceed the death toll in

the Korean War. and the nation continues to spend \$100,000,000 per day to finance the war; and

WHEREAS, The direct American involvement in the war in Vietnam—never intended in our original intervention—has reached the point where it brings an intolerable financial and personal burden to all Americans; and

WHEREAS, The pressing needs of our nation's cities are being slighted, Congressional appropriations are being cut and urban programs are being curtailed in the face of increasing need for substantial government action; and

WHEREAS, It is apparent that the national government has not yet formulated a definite plan to end direct American involvement in the Vietnam war;

NOW, THEREFORE, BE IT RESOLVED, That the Pittsburgh City Council hereby memorializes the administration of President Richard M. Nixon to declare and carry out a definite program to terminate direct American involvement in the war in Vietnam and to put into effect the systematic withdrawal of major forces in America, to be completed before the end of 1970; and

BE IT FURTHER RESOLVED, That the Pittsburgh City Council does hereby memorialize the Congress of the United States to provide through its legislative and budgetary powers that the administration of President Nixon quickly begin to extricate the United States from its crushing, disastrous involvement in Vietnam and to devote national resources to programs which meet the needs of cities in housing, education and public transportation.

Which was read.

Mr. Kuhn:

Mr. President, in moving the adoption of the resolution, I'd like to make two observations.

First, that our colleague, Mrs. D'Ascenzo, who is absent today, has called and expressed her wish to the City Clerk that she be recorded as voting favorably for this resolution. While her absence will not make it possible for her to do so physically, we all want her views and support reflected.

Secondly, I would like to point out that while other interests may be taking place across the nation tomorrow on a similar vein to this, our particular interest in this and as seen in municipal government here in Pittsburgh and in other cities, is that our national priorities and the use of our natural resources be so readjusted that we begin to meet the critical needs of our cities.

We have seen, over the years, the inadequate federal assistance given to problems of housing, education, urban and public transportation, while very heavy expenditures for military and defense and research in these fields go forth. The reordering of these priorities, I think, needs no demonstration as far as we who work in City government are concerned.

So, I feel we can properly adopt this resolution and know that we are expressing the needs and desires of the people who live in this City as in other cities. For some time I think it has been thought that municipal governments have no real foreign policy and that may be so. Maybe we have no foreign policy powers as such, but we certainly do know the needs of the City and we are elected to see that our representation of our constituency meets these needs. These needs are a national problem now, one which I believe calls for the adoption of a resolution such as this at this time.

I move for those reasons that we adopt this resolution.

No. 3999. A Resolution to Implement the "TOPICS" Program.

WHEREAS, the CITY OF PITTSBURGH has been invited to participate in a new federally-assisted Traffic Operations Program to improve capacity and safety of our major streets.

WHEREAS, this program, known as "TOPICS" will be administered on a matching funds basis through the Pennsylvania Department of Highways;

WHEREAS, the improvements must solve area-wide problems and must be based on engineering studies, and be compatible with long-range transportation plans;

WHEREAS, the plan must be approved by the City, Southwestern Pennsylvania Regional Planning Commission, the Highways Department and the Federal Bureau of local roads;

WHEREAS, in order to assist communities in developing "TOPICS" plans, funding for the studies to determine the needs and establish a program of action will be on the basis of 50% federal, 25% state and 25% city;

WHEREAS, because of the complexity and general scope of the work to be undertaken, it is proposed that the Southwestern Pennsylvania Regional Planning Commission be designated to coordinate and administer the Pittsburgh "TOPICS" studies;

WHEREAS, because the Southwestern Pennsylvania Regional Planning Commission is already administratively organized and financed to direct the long-range transportation plans for the region, and since Pittsburgh's arterial system is an integral part of the immediate, as well as long-range transportation system for the region, it appears logical that the administration for the "TOPICS" program studies be centered in this organization;

WHEREAS, since assistance will be provided by the City in the conduct of these studies, the accumulated man hours and other technical efforts will be a non-cash contribution by the City to the study;

WHEREAS, it is anticipated that the City's cash contribution, under this financial arrangement, should not exceed \$15,000;

WHEREAS, the first phase of the study is expected to be completed within two months in order to apply for implementation funds for the 1970 construction season;

WHEREAS, the completed study, necessary to produce a continuing five or six-year program for traffic operations improvements, should be completed within eighteen months;

WHEREAS, the funding for the implementation of actual field improvements, based on the study recommendations, will be shared equally by the Federal Government and City on a 50-50 basis;

WHEREAS, this program will enable the City to almost double the number of intersection and other traffic related improvements at no significant increase in capital outlay;

WHEREAS, while the "TOPICS" program studies will be administered by Southwestern Pennsylvania Regional Planning Commission, under strong, direct guidance by the City, the necessary contracts for construction will be handled by the City alone, and not involve that agency;

WHEREAS, initiation of this program in Pittsburgh requires that a resolution be passed by City Council to indicate a willingness to participate in the financing, a pledge to maintain the physical improvements that will result and an agreement to regulate and enforce traffic controls critical to the system.

RESOLVED, That subject to Councilmanic approval of the specific implementation of the "TOPIC" Program, the City intends to take the following action:

1. To assist in financing the program outlined above.

2. To have the Southwestern Regional Planning Commission be designated to act as coordinating administrative agent for the gathering and tabulation of data, and the preparation of a final report documenting the traffic network, improvement areas,

recommended solutions and all other study requirements of the program.

3. To participate financially in the conduct of these studies through the Southwestern Pennsylvania Regional Planning Commission, both in the form of a non-cash contribution, and by direct cash contribution, as necessary, to satisfy the 25% Local share requirement.

4. Enter into the necessary contracts with the Federal Government through the State, on a matching fund basis (50/50) for the implementation of actual field improvements resulting from the "TOPICS" studies.

5. To provide the money required to maintain these improvements, and to provide the necessary traffic and parking regulation enforcement needed to insure the success of the traffic operation improvements recommended by the study.

Mr. Ticknor:

Yes I would. I'd like to say a few words about those hearings.

The Chair:

You have heard Mr. Ticknor's request. Any remarks from City Council?

Mr. Baskin:

Mr. President, I have always taken the stand that legislative hearings should not be interrupted by statements from citizens. They should have had an appointed hearing or bring it up in

Committee Hearings. I think consistent to that I'm going to object to this thing without even going into the merit. I have nothing to say about the merits of the situation because I don't know what they are. But consistent with this understanding, I'm going to object to this.

You know we could have every one of these meetings interrupted and I don't think we ought to break our rule in favor of one or another to show favoritism.

The Chair:

Anybody else care to be heard? Mr. Ticknor, we must have unanimous consent and you don't have it, so your letter will be presented to Council on Wednesday and we will have a public hearing for that as soon as possible. I'm not in a position to know just when, but it will be as soon as possible. Thank you.

WHEREAS, because the Southwestern Pennsylvania Regional Planning Com-

mission is already administratively organized and financed to direct the long-range transportation plans for the region, and since Pittsburgh's arterial system is an integral part of the immediate, as well as long-range transportation system for the region, it appears logical that the administration for the "TOPICS" program studies be centered in this organization;

WHEREAS, this program will enable the City to almost double the number of intersection and other traffic related improvements at no significant increase in capital outlay;

WHEREAS, while the "TOPICS" program studies will be administered by Southwestern Pennsylvania Regional Planning Commission, under strong, direct guidance by the City, the necessary contracts for construction will be handled by the City alone, and not involve that agency;

WHEREAS, initiation of this program in Pittsburgh requires that a resolution be passed by City Council to indicate a willingness to participate in the financing, a pledge to maintain the physical

improvement that will result and an agreement to regulate and enforce traffic controls critical to the system.

RESOLVED, That subject to Councilmanic approval of the specific implementation of the "TOPIC" Program, the City intends to take the following action:

To have the Southwestern Regional Planning Commission be designated to act as coordinating, Administrative agent for the gathering and tabulation of data, and the preparation of a final report documenting the traffic network, improvement of a final report documenting the traffic network, improvement areas, recommended solutions and all other study requirements of the program.

3. To participate financially in the conduct of these studies through the Southwestern Pennsylvania Regional Planning Commission, both in the form of a non-cash contribution, and by direct cash contribution, as necessary, to satisfy the 25% Local share requirement

4. Enter into the necessary contracts with the Federal Government through the State, on a matching fund basis (50/50) for the implementation of actual field improvements resulting from the "TOPICS" studies.
